## BRAINERD GREETES PI BETA PHI FRATERNITY

### TWO SPECIAL TRAINS IN CITY SUNDAY AFTERNOON

BRAINERD LADIES' BAND PLAYS, CITY ATTORNEY SPEAKS IN BEHALF OF BRAINERD

CHAMBER OF COMMERCE COMMITTEE ALSO ENTERTAINS U. OF T. GIRLS

Promptly at 3:15 P. M. yesterday the first special train carrying Pi Beta Phi fraternity delegates and members arrived in Brainerd and was greeted at the Northern Pacific depot by the Brainerd Ladies Band, Brainerd Chamber of Commerce, delegations of women's clubs, fraternity members and citizens generally. The reception came as a surprise to the Pi Beta Phi and they were highly appreciative of the honors paid them.

Acting for Mayor Frank E. Little, City Attorney D. H. Fullerton extended to Mrs. C. Sigler, of Indianapolis, Iowa, national historian of Pi Beta Phi, greetings from Brainerd and told her of the wonderful lake country of which Brainerd is the gateway.

When the second special train 15 minutes later, Mr. Fullerton extended greetings to Mrs. Ford J. Allen, The Brainerd Ladies Band received applause in plenty, every selection finding favor. The whole reception tendered by the citizens of Brainerd was spontaneous and a most hearty one.

The delegation of Pi Beta Phi girls from the University of Toronto were also shown attention. Arriving at Duluth after a lengthy lake trip, they took train to Brainerd and came here at 12:35 P. M. yesterday. After luncheon at the Ransford hotel, the girls were given an automobile trip by the Chamber of Commerce committee and returned to the depot to join the second section of the special.

**Opening Session of Pi Beta Phi**  
The opening session and sing of Pi Beta Phi fraternity was held last evening at Breezy Point Lodge with close to 700 delegates and members present for the six day period of the convention. Grand President Miss Amy B. Onken, Chapin, Ill., presided.

Greetings were read from members all over the United States and from other national fraternities. Special recognition was accorded those members attending the most conventions and to those belonging to honorary scholarship societies. An informal reception followed.

The lobbies of Breezy Point hotel are filled by exhibits from 71 universities of the United States and Canada.

Registrations are being received for tennis, golf, swimming and bridge tournaments, lovely prizes and cups having been donated by Mrs. W. H. Fawcett.

The regular business session of the fraternity opened Monday morning at 9 o'clock. The afternoon session opens at 2 P. M. At 8 o'clock this evening the model initiation will be given.

On Tuesday, June 28, the regular session at 9 A. M. will include alumnae department reports. At 2 P. M. regular session and round tables. At 8 P. M. settlement school program.

On Wednesday, June 29, 9 A. M. regular session and extension. 2 P. M. recreation afternoon. 8 P. M. stunt night.

On Thursday, June 30, at 9 A. M. regular session. 2 P. M. regular session and alumnae department. At 7 P. M. banquet.

On Friday, July 1, regular session at 9 A. M. Special for Yellowstone Park leaves at 4 P. M. Friday, July 1.

A post-convention party will be held at Inwood on Gull Lake.

Pathe news reel took pictures of the three founders of the fraternity and groups of members. The three founders who with nine other university girls formed Pi Beta Phi 60 years ago, are taking as much interest in the proceedings as the youngest girls present. The three ladies, now 80 or more years old, are Mrs. Clara Brownlee Hutchinson, Monmouth, Ill., Mrs. Fanny Whitenack Libbey, Seattle, Wash., and Mrs. Inez Smith Soule, Tacoma, Wash.

Automobile parties are arriving from Duluth, Omaha, St. Louis and other cities.

St. Paul, June 25.—(UP)—Firemen today brought under control three fires which caused total damage estimated at about \$500,000. A fireman was slightly injured while working about a fire truck. The fires were at manufacturing plants here.

## Mystery Element In Army Trans-Pacific Flight

### 2 NEGRO WOMEN BATTLE TO DEATH WITH KNIVES

New Orleans, La., June 27.—(UP)—Two negro women battled to death with knives here early today. They were Maude Bernardo, 20, and a woman known only as Corinne. Both died in an ambulance en route to a hospital. The cause of their dispute was not known.

### BIG BUSINESS BLAMED FOR HIGH TARIFF

WALLS ERECTED AFTER THE WAR, IS CHARGE MADE

BARRIERS TO WORLD TRADE, SAYS SIR ALAN ANDERSON

Stockholm, Sweden, June 27.—(UP)—Big business was to blame for high post-war tariff walls that, he argued, were acting as barriers to world trade, Sir Alan Anderson said today in opening the fourth biennial congress of the international Chamber of Commerce.

The king and other members of the royal family were present with 1,000 delegates representing 40 nations.

"Nationalist fever after the war made even consumers, suffering from inflated taxes and currency, join the cry for help from national industry that aimed at barring the foreigner from trade," Sir Alan said. "Our hopes were realized. The foreigner was barred—and the ship of trade, too heavily freighted, turned bottom upward."

Acting Foreign Minister Jakob G. Pettersson, welcoming the congress, said Sweden would consider seriously all resolutions that might be passed, with a view to their application to international trade.

Chairman Allenberg of the Swedish national committee complimented the United States representatives on their initiative in organizing the chamber.

"It was of great importance to the welfare of the world," he said.

### CLOUDBURST AT ARLINGTON, ORE.

Arlington, Ore., June 27.—(UP)—Residents of this section of Oregon today were checking up on damage caused when a cloudburst struck late Sunday.

A wall of water seven feet high crashed down on Arlington after a cloudburst hit Sutter Flats, seven miles south of here. The deluge on Milton followed a series of small cloudbursts in the nearby mountains. Western was swept by a wall of water three miles wide.

So far as is known no one was killed or injured, but property damage is expected to exceed \$500,000.

### DENY REPORT OF FLIGHT FROM NEW YORK TO ROME

Cleveland, O., June 27.—(UP)—Reports in New York that Lloyd W. Bertaud, Cleveland air mail pilot, had signed a contract to fly a new three motored Bellanca plane from New York to Rome were denied here today by Bertaud.

"It is the first time I ever heard of such a scheme," Bertaud said. "I am dicker with no one."

Bertaud has returned to the more or less prosaic routine of flying the air mail between Cleveland and New York since his split with Charles A. Levine, owner of the Bellanca monoplane "Columbia" which made the New York-German hop.

New York, June 27.—(UP)—Cheering and singing the Internationale, 170 striking fur workers, 50 of whom were women, were removed in police patrols and private automobiles today to the 30th street station, after their arrest in the mid-town fur district for disorderly conduct.

Police reserves were required to prevent a riot when strike pickets, 16 abreast, marched down Seventh avenue. The police had been warned that trouble might be resumed today and after attempting to disperse the crowd, arrested the persons they judged to be the leaders.

### COOLIDGE VISIT CAUSES BIG BOOM

HUNDREDS OF TOURISTS TREK INTO RAPID CITY S. D.

SPECIAL TRAINS RUN TO TOWN. HOTELS AND RESTAURANTS HAVE BIG BUSINESS

By PAUL R. MALLON (United Press Staff Correspondent)

Rapid City, S. D., June 27.—The biggest boom of the west since the gold rush days has been started as a result of President Coolidge's spending the summer here, according to reports of the Chamber of Commerce, civic organizations and railroads.

Three hundred tin can tourists a day trek into Rapid City; the Chicago & Northwestern railroad is running a special train a day from Chicago; hotels and restaurants are doing an unbelievably big business and all industries serving transients are making more money than ever before.

Special delegations ranging from 10 to 300 persons come in almost daily from all parts of the west to see Mr. Coolidge at his remote summer White House.

All surrounding states are getting the benefit of Mr. Coolidge's boom. They are all staging stunts for him which attract people and money and practically all of them expect Mr. Coolidge to visit them before he goes back to Washington.

For instance, in the middle of July, Wyoming will open a pony express from Cheyenne to the president's state game lodge with eighteen pony riders strewn along the way to carry messages from Governor Frank C. Emerson of Wyoming to Mr. Coolidge. This feature was announced today by T. Joe Cahill, manager of the Wyoming department of commerce and industry, who is here making arrangements.

Even 24,000 Sioux Indians here are getting in on the play. When Mr. Coolidge goes to Deadwood for the "Days of '76" celebration in the middle of August, Chief Yellow Robe, grand nephew of Sitting Bull with 200 other Sioux chiefs will elect him to their sacred council and smoke a pipe of peace with him. Indians have not yet decided what to name Mr. Coolidge but they are considering such titles as "Chief Stillwater" or "Great White Father."

Similarly the president's presence here is being used to develop roads. It is announced that the board of directors of Yellowstone Pacific highway commission will call upon him July 29 to stimulate a road building program in this region.

Mr. Coolidge is doing all he can to help everything along. He has accepted every invitation to visit the surrounding country which has been tendered, with one exception, where two invitations conflicted as to time. The president spent a quiet weekend. He went to church at Hermosa and heard the 29-year-old unordained pastor, Rolf Lium, tell how far Elmer Gantry, fictional roving parson, was from true canons of Christ.

Then the president took a short ride in his new automobile and sat on the front porch watching tourists pass throughout Sunday.

### GERMAN AVIATRIX MAY ATTEMPT OCEAN HOP NEXT SPRING

Hamburg, Germany, June 27.—(UP)—Thea Rasch, Germany's leading woman aviator, today announced in an exclusive United Press interview that Charles A. Levine plans to build a three-motored airplane in which she will attempt a trans-Atlantic flight next spring.

"I am going to meet Levine and Clarence D. Chamberlin in Paris July 5," she said. "Then I am going to fly to London and embark with them at Southampton for New York."

"In the United States I hope to do some stunt flying, and then I am going to do some flying in South America while Levine is building my trans-Atlantic plane."

### CHICAGO'S ENTIRE TRANSIT SYSTEM MAY BE TIED UP

Chicago, June 27.—(UP)—A tie-up of Chicago's entire transit system was threatened today unless a last minute conference over wage questions is arranged.

The carmen have voted to strike unless demands for increase in salaries is granted. Officials of the various traction systems say that wage increases are impossible and have indicated they will give no future conferences with wage increase as the sole basis of argument.

William D. Mahon, international president of the Carmen's union, today is expected to attempt arranging another conference with the hopes of settling the dispute.

### START OF BYRD FLIGHT DELAYED TO WEDNESDAY

UNFAVORABLE WINDS FORECAST FROM NEW YORK TO NEWFOUNDLAND

"AMERICA" WILL TAKE OFF AS SOON AS WEATHER PERMITS

Roosevelt Field, N. Y., June 27.—The start of the trans-Atlantic flight of the monoplane America today was definitely postponed until Wednesday.

Commander Richard E. Byrd announced after a conference with James Kimball, weather forecaster, that unfavorable winds from here to Newfoundland and a large storm area stretching across the ocean from Newfoundland nearly to Ireland would prevent a take-off tomorrow.

All three motors of the plane were tested today and found to be in perfect condition.

### 'SPIDER' HAINES STILL SITTING ON HIS FLAGPOLE

Denver, Colo., June 27.—(UP)—"Spider" Haines was still "sitting" on the top of his flag pole here today. "See that the wife's comfortable," "Spider" relayed down to the roof of the building where Mrs. Spider is residing in a tent.

"Spider" said today that it was growing slightly "tiresome" to stay up there so long with nothing to do. But he is not thinking of quitting. "I'm only started on this," he shouted down. "I'm here to stay and it'll take more than hot sun and rain to get me down."

"Spider" intends to break the record of 12 days and 12 nights established by "Shipwreck" Kelly or "leave town." Mrs. Haines said she knows he will succeed and she will "leave town with him" if he fails.

### AIMEE'S DAUGHTER PREACHES SERMON

Chicago, June 27.—(UP)—Roberta Starr Semple, 16 year old daughter of Aimee Semple McPherson, preached her first sermon in Chicago yesterday. The girl preacher's talk was a part of her mother's evangelistic campaign here. Her topic was "Two's Company, Three's a Crowd."

"The two who make company are God and yourself," she said. "The third who makes a crowd is the devil." Mrs. McPherson will tell the story of her life at tonight's and tomorrow night's meetings.

### FUNERAL RITES FOR 4 DAUGHTERS DROWNED IN LAKE

Jacksonville, Fla., June 27.—(UP)—Funeral services will be held here tomorrow for the four daughters of Mr. and Mrs. Benjamin Silcox, who were drowned yesterday when the boat they were rowing in Clearwater lake overturned.

### J. F. GOULD, COMMISSIONER, IN STATEMENT

A. C. KLANCKE NAMED NEW ASSISTANT TO MR. GOULD

HENKE BECOMES MANAGING EDITOR OF PUBLICATION

St. Paul, Minn., June 27.—(UP)—In line with reorganization plans of the commission of administration and finance, a number of changes in personnel of the state game and fish department were announced today by J. F. Gould, commissioner.

A. C. Klancke, superintendent of commercial fishing, will assume the duties of assistant to Gould July 1, succeeding Charles W. Henke, resigned.

Henke will become managing editor of "Fins, Feathers and Fur," official state game and fish department publication, which will be printed each month instead of every three months.

Other changes in the department announced today are:

George Weaver, superintendent of the state fisheries at Redby, to succeed Klancke and to take charge of both the bureau of commercial fishing and the state fisheries.

M. T. McElstrom, former accountant of the commission of administration and finance, to take charge of accounts and supervise the office, assuming the duties of James Slattery, abstract clerk; and Joe Lingie, bookkeeper. Slattery will be assigned to departmental field work.

### VILMA BANKY AND ROD LA ROCQUE ON HONEYMOON

Hollywood, Calif., June 27.—(UP)—Vilma Banky and Rod La Rocque, noted screen lovers, were enroute to Vancouver today on their honeymoon, which will include a two months tour of the Canadian Rockies.

Miss Banky, whose name in her native village in Hungary was Vilma Konicis, and La Rocque, were married yesterday in the Church of the Good Shepherd in Beverly Hills.

Thousands of persons crowded to glimpse the event, described as the most colorful of the present season. Cecil Demille, producer, was the groom's man.

Constance Talmadge, Bebe Daniels, Mildred Davis, Monique La Rocque, Diana Kane, and Mrs. Samuel Goldwyn were ladies in waiting to Miss Banky.

Miss Banky came to America in 1925. She and La Rocque met at a dinner party at Cecil B. Demille's home. Neither understood the other's language. But when they met six months later, the actress had mastered English. Three weeks after that they announced their engagement, then the wedding date.

### 15 PLANES TO LEAVE DETROIT ON WIDE TOUR

Detroit, June 27.—(UP)—An airplane tour of half the states in the union to demonstrate aeronautical progress was scheduled to start from Ford airport today.

Fifteen planes, carrying 52 passengers, were tuned up for the 4,000-mile flight.

The planes will fly across lower Ontario to Buffalo, N. Y., where the first stop will be made late today. From Buffalo, the fleet will fly to Boston, double back to New York and Baltimore, head west for Dallas, Tex., and Tulsa, Okla., and thence to Detroit.

An army observation plane carrying Ray Collins, tour referee, and flown by Lieut. J. G. Breene, will precede the planes.

The modern machines competing for \$20,000 in prizes and the Edsel Ford trophy in the third national tour, will be judged on points.

### METHODISTS GIVE OVER 8 MILLION TO WORLD SERVICE

Chicago, June 27.—(UP)—Members of the Methodist Episcopal church gave \$8,330,352 to the world service program for the year closing May 31, Dr. O. W. Auman, treasurer of the world service commission reported at the annual meeting today.

The church collections totaled \$7,705,170, and special gifts amounted to \$625,182.

The total showed a decrease of \$323,067 over the 1926 figures.

### MOVIES TO LOWER STARS' SALARIES TOO

NEW ECONOMY PROGRAM CALLS FOR 10 TO 25 PER CENT CUTS

TOM MIX BUCKS AT ACCEPTING ANY REDUCTION

Hollywood, June 27.—(UP)—Motion picture producers planned to ask their contract stars, which include many of the most well known players, what they think of their new economy program of lowering salaries by 10 to 25 per cent.

The contract stars were expected to answer in their own characteristic manners.

Tom Mix, for one, has announced that he will refuse to accept a reduction. Mix's shooting of western bad men and his riding of the pony, Tony, is considered one of the greatest box office attractions in the film world. It is said he received \$15,000 a week.

Many of the high paid stars were expected to take the same stand as that of Mix, although no others had made statements.

"Perhaps the movies have been run on an extravagant and unsettled salary basis, but the fact remains that the stars are the stock in trade. I know what I am worth and I don't intend to accept any reduction," Mix said.

Conrad Nagel has been named chairman of an executive committee by motion picture players who belong to the Actor's Equity of New York City. Nagel said the committee would act for the interest of all studio employees but declined to say what action it might take.

A mass meeting has been called for Wednesday night and everyone affected by the wage cuts was invited to attend.

Mass meetings will be of little benefit in many cases when important producers call upon their temperamental stars today and mention the reductions, it was feared, however.

First National was scheduled to tell Milton Sills, Billie Dove, Richard Barthelmess and Mary Astor that they must submit to a reduction. Metro-Goldwyn-Mayer were to approach Jack Gilbert, Norma Shearer, Greta Garbo and other contract stars.

Paramount was to confer with Pola Negri and ask her to take less money for her services. Bebe Daniels, Clara Bow, Adolphe Menjou and Wallace Beery were included in the same group.

Universal, Mack-Sennett, Christie and other producers all planned to put the situation formally before their contract stars today.

### MIDWIFE CHARGED WITH SELLING A BABY GIRL FOR \$75

New Orleans, La., June 27.—(UP)—Mrs. T. P. Hodgins, a midwife, was held by authorities here today charged with selling a baby girl for \$75, following a year's investigation into alleged trafficking in children.

An affidavit charging Mrs. Hodgins with contributing to the delinquency of a minor has been filed in juvenile court. The woman surrendered to police yesterday.

Miss Susan K. Gillean, executive head of the Louisiana children's bureau, conducted the investigation which resulted in Mrs. Hodgins' arrest. She was first attracted by a carefully worded newspaper advertisement offering babies for adoption.

### MAY LEAVE OAKLAND LATE THIS AFTERNOON

THEIR TRI-MOTORED PLANE RESTS 100 FEET FROM SMITH'S PLANE

LATTER, AIR MAIL PILOT, ALSO IN RACE WITH SMALL SIZE MONOPLANE

By JOHN N. PALMER (United Press Staff Correspondent)

Oakland Airport, San Leandro Bay Cal., June 27.—(UP)—An element of mystery entered the projected trans-Pacific flight of the army today when the flight commander, Lieut. Lester J. Maitland was whisked off Oakland airport less than an hour after arrival.

While preparations were under way for fueling the Fokker monoplane in which Maitland and Lieut. Albert F. Hegenberger will attempt the trans-oceanic hop, a Crissy Field plane alighted and Maitland was summoned to the cockpit.

He entered for an unannounced destination. It was rumored he was to be taken to Crissy Field for conference with Maj. Gen. Mason M. Patrick, chief of the army air service.

Crissy Field officials denied any knowledge of Patrick's supposed arrival.

The tri-motored Fokker plane was brought to rest at 10:09 A. M., less than 100 feet from the Travelair monoplane of Ernest L. Smith, air mail pilot, expected to compete with the Fokker in the unofficial "race" which seemed likely to begin before 4 P. M. today.

Smith's Travelair monoplane appeared less than half the size of the army Fokker, which is almost identical with the plane in which Richard E. Byrd plans to fly across the Atlantic.

The olive drab Fokker will be christened "Bird of Paradise." If Maj. Gen. Patrick approves the suggestion of Maitland and Hegenberger.

Arrival of the Fokker was followed by appearance of a truck from Crissy Field bearing fueling equipment, rockets and flares, a collapsible lifeboat and an extra propeller.

Reports of a possible take-off by one or both planes before nightfall seemed to be authentic toward midnight.

Al Wild, chief mechanic for the Smith plane, announced that "if we can get the plane ready, they'll hop off about 4 o'clock."

Lieut. Maitland said: "We are ready as soon as Gen. Patrick gives the word."

Work on the Smith monoplane which had not yet been taken up in test flights, was rushed early in the day with word of the army plane's hop from Crissy Field.

San Francisco, Cal., June 27.—Developments today at aviation fields here and in Hawaii indicated that three airplanes may attempt the conquest of the Pacific before and after dawn Tuesday.

Despite lack of confirmation from aviators engaged in the projected flights, the undertakings had assumed a competitive aspect.

In the Pearl Harbor, Hawaii, camp of Richard Grace and at Crissy Field, San Francisco, where the army fliers were quartered, preparations had progressed to the final test flights.

Lieutenants Lester J. Maitland and Albert F. Hegenberger were in the air 45 minutes Sunday piloting through exhaustive tests the tri-motored Fokker in which they hope to span the 2408 miles to Honolulu.

Richard Grace, Los Angeles aviator who intends to attempt the reverse flight from Honolulu to the mainland, was in the air 30 minutes. The Wright motored monoplane of Ernest L. Smith, air mail pilot, was tuned for its first test flight today at Oakland municipal airport, Bay Farm Island.

### JOHN DREW SAID TO BE SINKING

San Francisco, June 27.—(UP)—John Drew, veteran American stage star, was reported very low today following a sudden turn for the worse yesterday. He has been critically ill of arthritis for four weeks.

### CHICAGO'S ENTIRE TRANSIT SYSTEM MAY BE TIED UP

Chicago, June 27.—(UP)—A tie-up of Chicago's entire transit system was threatened today unless a last minute conference over wage questions is arranged.

The carmen have voted to strike unless demands for increase in salaries is granted. Officials of the various traction systems say that wage increases are impossible and have indicated they will give no future conferences with wage increase as the sole basis of argument.

William D. Mahon, international president of the Carmen's union, today is expected to attempt arranging another conference with the hopes of settling the dispute.

### START OF BYRD FLIGHT DELAYED TO WEDNESDAY

UNFAVORABLE WINDS FORECAST FROM NEW YORK TO NEWFOUNDLAND

"AMERICA" WILL TAKE OFF AS SOON AS WEATHER PERMITS

Roosevelt Field, N. Y., June 27.—The start of the trans-Atlantic flight of the monoplane America today was definitely postponed until Wednesday.

Commander Richard E. Byrd announced after a conference with James Kimball, weather forecaster, that unfavorable winds from here to Newfoundland and a large storm area stretching across the ocean from Newfoundland nearly to Ireland would prevent a take-off tomorrow. All three motors of the plane were tested today and found to be in perfect condition.

### 'SPIDER' HAINES STILL SITTING ON HIS FLAGPOLE

Denver, Colo., June 27.—(UP)—"Spider" Haines was still "sitting" on the top of his flag pole here today. "See that the wife's comfortable," "Spider" relayed down to the roof of the building where Mrs. Spider is residing in a tent.

"Spider" said today that it was growing slightly "tiresome" to stay up there so long with nothing to do. But he is not thinking of quitting. "I'm only started on this," he shouted down. "I'm here to stay and it'll take more than hot sun and rain to get me down."

"Spider" intends to break the record of 12 days and 12 nights established by "Shipwreck" Kelly or "Leave town." Mrs. Haines said she knows he will succeed and she will "leave town with him" if he fails.

### AIMEE'S DAUGHTER PREACHES SERMON

Chicago, June 27.—(UP)—Roberta Starr Semple, 16 year old daughter of Aimee Semple McPherson, preached her first sermon in Chicago yesterday. The girl preacher's talk was a part of her mother's evangelistic campaign here. Her topic was "Two's Company, Three's a Crowd."

"The two who make company are God and yourself," she said. "The third who makes a crowd is the devil." Mrs. McPherson will tell the story of her life at tonight's and tomorrow night's meetings.

### FUNERAL RITES FOR 4 DAUGHTERS DROWNED IN LAKE

Jacksonville, Fla., June 27.—(UP)—Funeral services will be held here tomorrow for the four daughters of Mr. and Mrs. Benjamin Silcox, who were drowned yesterday when the boat they were rowing in Clearwater lake overturned.

### J. F. GOULD, COMMISSIONER, IN STATEMENT

A. C. KLANCKE NAMED NEW ASSISTANT TO MR. GOULD

HENKE BECOMES MANAGING EDITOR OF PUBLICATION

St. Paul, Minn., June 27.—(UP)—In line with reorganization plans of the commission of administration and finance, a number of changes in personnel of the state game and fish department were announced today by J. F. Gould, commissioner.

A. C. Klancke, superintendent of commercial fishing, will assume the duties of assistant to Gould July 1, succeeding Charles W. Henke, resigned.

Henke will become managing editor of "Fins, Feathers and Fur," official state game and fish department publication, which will be printed each month instead of every three months.

Other changes in the department announced today are:

George Weaver, superintendent of the state fisheries at Redby, to succeed Klancke and to take charge of both the bureau of commercial fishing and the state fisheries.

M. T. McElstrom, former accountant of the commission of administration and finance, to take charge of accounts and supervise the office, assuming the duties of James Slattery, abstract clerk; and Joe Lingler, bookkeeper. Slattery will be assigned to departmental field work.

### VILMA BANKY AND ROD LA ROCQUE ON HONEYMOON

Hollywood, Calif., June 27.—(UP)—Vilma Banky and Rod La Rocque, noted screen lovers, were enroute to Vancouver today on their honeymoon which will include a two months tour of the Canadian Rockies.

Miss Banky, whose name in her native village in Hungary was Vilma Konsics, and La Rocque, were married yesterday in the Church of the Good Shepherd in Beverly Hills.

Thousands of persons crowded to glimpse the event, described as the most colorful of the present season. Cecil Demille, producer, was the groom's man.

Constance Talmadge, Bebe Daniels, Mildred Davis, Monique La Rocque, Diana Kane, and Mrs. Samuel Goldwyn were ladies in waiting to Miss Banky.

Miss Banky came to America in 1925. She and La Rocque met at a dinner party at Cecil B. Demille's home. Neither understood the other's language. But when they met six months later, the actress had mastered English. Three weeks after that they announced their engagement, then the wedding date.

### 15 PLANES TO LEAVE DETROIT ON WIDE TOUR

Detroit, June 27.—(UP)—An airplane tour of half the states in the union to demonstrate aeronautical progress was scheduled to start from Ford airport today.

Fifteen planes, carrying 52 passengers, were tuned up for the 4,900-mile flight.

The planes will fly across lower Ontario to Buffalo, N. Y., where the first stop will be made late today. From Buffalo, the fleet will fly to Boston, double back to New York and Baltimore, head west for Dallas, Tex., and Tulsa, Okla., and thence to Detroit.

An army observation plane carrying Ray Collins, tour referee, and flown by Lieut. J. G. Breene, will precede the planes.

The modern machines competing for \$20,000 in prizes and the Edsel Ford trophy in the third national tour, will be judged on points.

### METHODISTS GIVE OVER 8 MILLION TO WORLD SERVICE

Chicago, June 27.—(UP)—Members of the Methodist Episcopal church gave \$8,330,352 to the world service program for the year closing May 31, Dr. O. W. Auman, treasurer of the world service commission reported at the annual meeting today.

The church collections totaled \$7,705,170, and special gifts amounted to \$625,182. The total showed a decrease of \$823,067 over the 1926 figures.

### MOVIES TO LOWER STARS' SALARIES TOO

NEW ECONOMY PROGRAM CALLS FOR 10 TO 25 PER CENT CUTS

TOM MIX BUCKS AT ACCEPTING ANY REDUCTION

Hollywood, June 27.—(UP)—Motion picture producers planned to ask their contract stars, which include many of the most well known players, what they think of their new economy program of lowering salaries by 10 to 25 per cent.

The contract stars were expected to answer in their own characteristic manners.

Tom Mix, for one, has announced that he will refuse to accept a reduction. Mix's shooting of western bad men and his riding of the pony, Tony, is considered one of the greatest box office attractions in the film world. It is said he received \$15,000 a week.

Many of the high paid stars were expected to take the same stand as that of Mix, although no others had made statements.

"Perhaps the movies have been run on an extravagant and unsettled salary basis, but the fact remains that the stars are the stock in trade. I know what I am worth and I don't intend to accept any reduction," Mix said.

Conrad Nagel has been named chairman of an executive committee by motion picture players who belong to the Actor's Equity of New York City. Nagel said the committee would act for the interest of all studio employees but declined to say what action it might take.

A mass meeting has been called for Wednesday night and everyone affected by the wage cuts was invited to attend.

Mass meetings will be of little benefit in many cases when important producers call upon their temperamental stars today and mention the reductions, it was feared, however.

First National was scheduled to tell Milton Sills, Billie Dove, Richard Barthelmess and Mary Astor that they must submit to a reduction. Metro-Goldwyn-Mayer were to approach Jack Gilbert, Norma Shearer, Greta Garbo and other contract stars.

Paramount was to confer with Pola Negri and ask her to take less money for her services. Bebe Daniels, Clara Bow, Adolphe Menjou and Wallace Beery were included in the same group.

Universal, Mack Sennett, Christie and other producers all planned to put the situation formally before their contract stars today.

### MIDWIFE CHARGED WITH SELLING A BABY GIRL FOR \$75

New Orleans, La., June 27.—(UP)—Mrs. T. P. Hodgins, a midwife, was held by authorities here today charged with selling a baby girl for \$75, following a year's investigation into alleged trafficking in children.

An affidavit charging Mrs. Hodgins with contributing to the delinquency of a minor has been filed in juvenile court. The woman surrendered to police yesterday.

Miss Susan K. Gillelan, executive head of the Louisiana children's bureau, conducted the investigation which resulted in Mrs. Hodgins' arrest. She was first attracted by a carefully worded newspaper advertisement offering babies for adoption.

### MAY LEAVE OAKLAND LATE THIS AFTERNOON

THEIR TRI-MOTORED PLANE RESTS 100 FEET FROM SMITH'S PLANE

LATTER, AIR MAIL PILOT, ALSO IN RACE WITH SMALL SIZE MONOPLANE

By JOHN N. PALMER (United Press Staff Correspondent)

Oakland Airport, San Leandro Bay Cal., June 27.—(UP)—An element of mystery entered the projected trans-Pacific flight of the army today when the flight commander, Lieut. Lester J. Maitland was whisked off Oakland airport less than an hour after arrival.

While preparations were under way for fueling the Fokker monoplane in which Maitland and Lieut. Albert F. Hegenberger will attempt the trans-oceanic hop, a Crissy Field plane alighted and Maitland was summoned to the cockpit.

He entered for an unannounced destination. It was rumored he was to be taken to Crissy Field for conference with Maj. Gen. Mason M. Patrick, chief of the army air service.

Crissy Field officials denied any knowledge of Patrick's supposed arrival.

The tri-motored Fokker plane was brought to rest at 10:09 A. M., less than 100 feet from the Travelair monoplane of Ernest L. Smith, air mail pilot, expected to compete with the Fokker in the unofficial "race" which seemed likely to begin before 4 P. M. today.

Smith's Travelair monoplane appeared less than half the size of the army Fokker, which is almost identical with the plane in which Richard E. Byrd plans to fly across the Atlantic.

The olive drab Fokker will be christened "Bird of Paradise." Maj. Gen. Patrick approves the suggestion of Maitland and Hegenberger.

Arrival of the Fokker was followed by appearance of a truck from Crissy Field bearing fueling equipment, rockets and flares, a collapsible lifeboat and an extra propeller.

Reports of a possible take-off by one or both planes before nightfall seemed to be authentic toward midday.

Al Wild, chief mechanic for the Smith plane, announced that "if we can get the plane ready, they'll hop off about 4 o'clock."

Lieut. Maitland said: "We are ready as soon as Gen. Patrick gives the word."

Work on the Smith monoplane, which had not yet been taken up in test flights, was rushed early in the day with word of the army plane's hop from Crissy Field.

San Francisco, Cal., June 27.—Developments today at aviation fields here and in Hawaii indicated that three airplanes may attempt the conquest of the Pacific before and after dawn Tuesday.

Despite lack of confirmation from aviators engaged in the projected flights, the undertakings had assumed a competitive aspect.

In the Pearl Harbor, Hawaii, camp of Richard Grace and at Crissy Field, San Francisco, where the army fliers were quartered, preparations had progressed to the final test flights.

Lieutenants Lester J. Maitland and Albert F. Hegenberger were in the air 45 minutes Sunday piloting through exhaustive tests the tri-motored Fokker in which they hope to span the 2408 miles to Honolulu.

Richard Grace, Los Angeles aviator who intends to attempt the reverse flight from Honolulu to the mainland, was in the air 30 minutes. The Wright motored monoplane of Ernest L. Smith, air mail pilot, was tuned for its first test flight today at Oakland municipal airport, Bay Farm Island.

### JOHN DREW SAID TO BE SINKING

Olander-Abramson

A very pretty wedding was solemnized Saturday morning, June 25, at 11 o'clock at the home of Mr. and Mrs. Gust Olander of Irondale when their son, Gustav Jr., was united in marriage to Sadie E. Abramson of Chicago. Rev. P. G. Fallquist of Brainerd officiated.

Preceding the ceremony, Mrs. P. G. Fallquist sang "O Promise Me," accompanied by Miss Marion Helder. Entering to the strains of a wedding march played by Mrs. Fallquist, the bridal party took their places beneath a bower of pink and white roses where the ceremony was performed.

The bride, who was given away by her father, Carl Abramson of Chicago, wore a gown of white georgette over satin trimmed with rhinestones. Her veil was held with orange blossoms and lilies of the valley. She carried a bouquet of white roses and baby breath.

The bridesmaid, Miss W. Bergreen of Minneapolis wore a coral satin gown fashioned with pearls and wore a bandeau of brilliants. She carried a bouquet of pink sweet peas and baby breath.

The best man was Herman Olander, brother of the groom.

Immediately after the ceremony "I Love You Truly" was sung by Mrs. Fallquist and telegrams from various cities were read expressing congratulations. Talks were given by Rev. F. W. Sandelle of Buffalo, G. Olander Sr., Carl Abramson and Rev. Fallquist.

The home was beautifully decorated in pink and white streamers interspersed with peonies. Streamers in the living room lead to the candlebra, lights of which were trimmed to produce a rose petal effect. The dining room was correspondingly decorated.

A most bounteous wedding dinner was served by Miss Myrtle Swanson of Deerwood. A party of twelve were seated around the bridal table which held a large wedding cake surrounded by pink and white tapers.

Mr. and Mrs. Olander left on a honeymoon after which they will make their home in Minneapolis.

Guests from out-of-town at the wedding were: Rev. and Mrs. P. G. Fallquist, of Brainerd, Rev. F. W. Sandell of Buffalo, Carl Abramson of Chicago, Clarence Abramson, Chicago, brother of the bride, and Miss Mamie Bergreen of Minneapolis. Other guests were Mr. and Mrs. Oscar Olson, Nels Olson.

The bride is well known to Range and Brainerd residents having lived in Crosby for several years. The groom is employed in the P. O. terminal at St. Paul.

## Olander-Abramson

A very pretty wedding was solemnized Saturday morning, June 25, at 11 o'clock at the home of Mr. and Mrs. Gust Olander of Irondale when their son, Gustav Jr., was united in marriage to Sadie E. Abramson of Chicago. Rev. P. G. Fallquist of Brainerd officiated.

Preceding the ceremony, Mrs. P. G. Fallquist sang "O Promise Me," accompanied by Miss Marion Helander. Entering to the strains of a wedding march played by Mrs. Fallquist, the bridal party took their places beneath a bower of pink and white roses where the ceremony was performed.

The bride, who was given away by her father, Carl Abramson of Chicago, wore a gown of white georgette over satin trimmed with rhinestones. Her veil was held with orange blossoms and lilies of the valley. She carried a bouquet of white roses and baby breath.

The bridesmaid, Miss W. Bergreen of Minneapolis wore a coral satin gown fashioned with pearls and wore a bouquet of pink sweet peas and baby breath.

The best man was Herman Olander, brother of the groom.

Immediately after the ceremony "I Love You Truly" was sung by Mrs. Fallquist and telegrams from various cities were read expressing congratulations. Talks were given by Rev. F. W. Sandelle of Buffalo, G. Olander Sr., Carl Abramson and Rev. Fallquist.

The home was beautifully decorated in pink and white streamers interspersed with peonies. Streamers in the living room lead to the candleabra, lights of which were trimmed to produce a rose petal effect. The dining room was correspondingly decorated.

A most bounteous wedding dinner was served by Miss Myrtle Swanson of Deerwood. A party of twelve were seated around the bridal table which held a large wedding cake surrounded by pink and white tapers.

Mr. and Mrs. Olander left on a honeymoon after which they will make their home in Minneapolis.

Guests from out-of-town at the wedding were: Rev. and Mrs. P. G. Fallquist, of Brainerd, Rev. F. W. Sandell of Buffalo, Carl Abramson of Chicago, Clarence Abramson, Chicago, brother of the bride, and Miss Mamie Bergreen of Minneapolis. Other guests were Mr. and Mrs. Oscar Olson, Nels Olson.

The bride is well known to Range and Brainerd residents having lived in Crosby for several years. The groom is employed in the P. O. terminal at St. Paul.

## Schmidtke-Williams

In the presence of 40 guests marriage vows were exchanged, Wednesday evening, June 15, at the home of Mrs. G. W. Bestor, 3240 Elliot Avenue, by her niece, Miss Maude Southey Williams of Brainerd, Minn., and Albert Otto Schmidtke of Oelwein, Ia. Rev. Charles Fox Davis read the service before an altar of palms, pink roses, spiera, snow balls and candles. Miss Dorothy Fisher of Brainerd played.

The bride, who entered with her father, wore a white silk crepe gown with a tulle veil held with orange

## ENDURANCE TEST WAS THRILLING

Miss Myrtle Gray Receives First Defeat in 14 Years in Under Water Contest

LOCAL GIRL WINS BY 4 SECONDS

No Records Involved, But Time Was Very Good Under the Conditions

Posting a forfeit of \$100 to any man, woman or child who could defeat her in an under water endurance test, Miss Myrtle Gray of the Lachman-Carson Shows, showing in Brainerd under the auspices of the Brainerd Firemen, received her first defeat in contest work in 14 years Saturday evening.

"Dixie" Thompson, who accepted Miss Gray's challenge, won by approximately four seconds, after the two ladies had given ample proof that they are possessed of lung power far beyond that of the ordinary person. The local girl's time was one minute and 46 seconds, which, although far from the existing records for this sport, was very good under the conditions. The water was icy cold and it was impossible for either to do justice to their powers of endurance. Miss Gray, who hails from Kentucky, demonstrated her sporting blood by heartily congratulating the local girl. In justice to Miss Gray, it may be understood that she was really working under a handicap, as she met the local contestant on the latter's own terms. Miss Gray has been accustomed to doing her endurance act while floating face downward while Mrs. Thompson has always performed her tests at the bottom, where it is easily understood the lung pressure is much greater. Had the contestants performed the endurance test each in her own way, there is no doubt that Miss Gray would have successfully upheld her challenge. In accepting the challenge, however, Mrs. Thompson suggested that they both go to the bottom with lead belts or weights and make it a "freeze-out" contest. Miss Gray, after working out in this manner Saturday afternoon, gamely agreed to the conditions and met the local girl at the bottom Saturday evening in her own element, knowing that the local professional had not been in active competition for five years.

Before a jammed house and with watches ticking off the seconds, the contestants submerged and began a grim battle of endurance at the bottom of the huge tank, while the spectators held their breath until blue in the face and then tried it again. When one minute, 30 seconds was announced, the crowd was all expectancy and when Miss Gray appeared at the surface after one minute and 42 seconds, there was wild applauding, followed by a tremendous cheer as the local girl appeared four seconds later. Showing herself to be a true sportswoman, Miss Gray had no alibi to offer and the bouquet of flowers which she received, she promptly tendered to the winner with heartiest congratulations.

Miss Gray has offered "Dixie" a contract to appear with her in a double under water act headlining a vaudeville circuit, probably the Orpheum, this winter. In case she does not accept this offer, Miss Gray has extended another challenge to meet her in this same test in her glass front tank, in one of the large cities included in Miss Gray's vaudeville itinerary during the coming season, at Minneapolis if possible.

Mrs. Thompson will give more attention to this phase of her work during the summer and will endeavor to bring her "under water" time up to around three minutes so she will be able to make a good showing in case this return match can be arranged.

Miss Gray's act is one of the four or five which play vaudeville circuits every season and has won a host of admirers not only by her fine work but by her charming personality. While here she gave Mrs. Thompson every privilege in the use of the tank and diving equipment.

The Moose Lodge has secured the services of the local diver to give several exhibitions of fancy diving and under water work at Lum Park on the Fourth of July.

### BERT A. SHEW RITES

Being Conducted This Afternoon at Kalispel, Mont.; Was Former Brainerdite

The funeral of Bert A. Shew who was accidentally killed at Columbus Falls, near Kalispel, last Thursday when he was thrown from an automobile which was struck by a train at a crossing, sustaining a fractured neck, is being conducted this afternoon at Kalispel, Mont.

Surviving are his wife and two daughters, Edith and Bessie, of Kalispel, an aged mother Mrs. Emma Shew Jebe, and one sister, Mrs. J. H. Roderick, of Brainerd beside other relatives here.

### Choose Wedding Attendants

Miss Helen Beatrice Sehl, daughter of Mr. and Mrs. Nicholas Sehl, 1108 Seventh street southeast, whose marriage to Dr. Severin Koop of Duluth, will be an event of Wednesday morning at 9 o'clock at St. Lawrence church, has chosen her sister, Miss Agnes Sehl to be her maid of honor. The Misses Margaret Quinlan and Myrtle Proulx will attend as bridesmaids. Otis Skauge of Brainerd will be Dr. Koop's best man. Ushers will include M. Murphy of Minneapolis and Dr. John Thabes of Duluth. Little Sonny Coskran, nephew of the bride-elect, will act as ringbearer—Minneapolis Tribune.

### SYNTHETIC CHAMPAGNE MADE AND DESTROYED

New York, June 27.—(UP)—Two Belgian scientists at Columbia university have been given permission by prohibition authorities to manufacture synthetic champagne, port and sherry wines by the use of a newly discovered "secret substance," it was understood today.

The scientists agreed, it was said, to destroy any wine they manufacture as soon as tests are completed. The exact nature of the tests to be made was not specified.

C. Buyaeve and George Vingerhoets, the scientists, said it would take 40 days to complete manufacture of the wines, which will have 13 per cent alcoholic content. They will be made, it was said, from sugar, water, flavoring and the "secret substance."

### DAY THAT MARKED DOWNFALL OF GERM

August Is Notable in Annals of Surgery.

On August 12, 1865, a youngster, whose name survives only as James G., was run over by a cart in Glasgow and gained undying fame, for his leg, if not for himself. Some one carried the injured lad to the Glasgow Royal Infirmary, where presided an eager young surgeon, newly come from London, and possessed of an idea. His name was Joseph Lister and his idea was that those mysterious living germs which Pasteur had just been investigating had something to do with the suppuration then considered inevitable after any surgical operation, as well as after bone fractures in which the skin also is broken, fractures which surgeons class as "compound" ones. Young James had suffered that kind of fracture of his leg. Most surgeons of the day would have said, as probably some of them did say, that James was likely to go one-legged through the rest of his life.

Young Doctor Lister thought differently. He tried on the wound in the leg the new germ-discouraging methods which he had been thinking out and testing. The result was magical. No suppuration followed; the leg healed. On March 16, 1867, Lister used the case to illustrate the first publication of his methods in the London Lancet. Antiseptic surgery, perhaps the greatest of all the gifts of medical science to mankind, had begun.

A world in which the miracle of painless and germless surgery has become a commonplace finds it difficult to realize how short a time has passed since its invention. The centenary of Lister's birth has just been celebrated by the world's physicians. It is less than half as long since his methods of conquering the germs became common knowledge and common practice. Of all the surgical operations now classed as major ones more than three-fourths could never have been attempted so long as germ invaders were admitted with the knife. Nowadays, thanks to Lister and to anesthesia, surgery is perhaps the most advanced of all arts. Indeed, it is far in advance, as Sir Berkeley Moynihan said at one of the Lister celebration, "of all the sciences upon which its future progress depends." Another Lister is needed to open some new field to its conquerors, perhaps another James to lend his leg to some renewed advance.

### Studying Street Noises

In an effort to bring about the elimination of many street noises, a survey is being made in the streets of Chicago with an instrument recently devised for recording and comparing the volume of different sounds. According to this instrument the average human voice records 40 and the streets noises on the level of one of Chicago's busiest corners is 657. The volume of noise encountered at the top of a tall building is about one-third that at the street level below. A steam engine pulling up a grade makes three times more noise than an electric motor doing the same amount of work on the same grade.

### Sure Earthworms Sing

If you don't believe that earthworms have voices and use them, tiptoe into the garden some warm summer evening, says Dr. Rudolph Ruedemann of the New York State museum, Albany, in a statement in Popular Science Monthly, confirming observations of the German scientist, Prof. O. Mangold.

Listening one evening in the garden, Doctor Ruedemann observed "a chorus of almost unbelievably small voices." Aided by a flashlight, he caught sever-

al worms in the act of "singing." The worms, he thinks, make these noises by dragging their minute bristles over the edges of their holes in the ground.

### Mule Long Imprisoned

When his mule disappeared, Dan Darling, pioneer farmer of Nixon, Texas, started a farflung search for him, without avail, even putting out postcards with a reward for his return. Two weeks later, he happened to cross a dry creek in the middle of his pasture, and found the mule wedged in between two banks in such a way that he could not get out. Darling procured help, and released the mule, which had not suffered much in spite of his long stay without food or water.—Indianapolis News.

### Money in Old Silver Foil

The so-called "silver" foil is really tin or aluminum foil and a great deal of it is used and much of it wasted by being discarded after once having served as a wrapping. A Welsh charity drive took the form of a collection of this material for the period of one year and the amount collected represented a value of \$10,000, which was expended in endowing hospital beds. During the "drive" other money and valuable material was collected which brought the total up to \$30,000.

### Automatic

One of the Los Angeles furniture stores has a new device that they call "Cupid's Retreat." It looks very much like most other daycups but unwary bachelors are warned.

"Why do you call it 'Cupid's Retreat'?" a visitor ventured to inquire. "The upholsterer is quite thin," explained the salesman, "and by the end of a year it is sure to be worn through, thereby displaying the sign: 'It's time to get married!'"

### MAKING UP

The newly married couple had fallen out. The quarrel lasted through the night, and next morning the wife, without speaking, went down to prepare breakfast. Thinking it was time to make peace, the husband went to the top of the stairs and called: "What's for breakfast, darling?" "Rats!" came back the tart reply. "All right, dear," replied hubby; "cook one for yourself, but boil me an egg."

### Pray Later

"Am dere anybody in de congregation what wishes prayer for deir fallin's?" asked the colored minister.

"Yassuh," responded Brother Jones, "Ah's a spen'thri! an' Ah throws mah money 'round reckless like."

"Ve'y well. We will join in prayer fo' Brother Jones—jes' afteh de collection plate have been passed."—Illinois Farmer.

### Wanted to Get Even

She (in Paris)—"Why were you so insistent about that waiter visiting America?" He (profanely)—"I want him to find out that it is just as hard for a Frenchman to make himself understood in America as it is for an American to make himself understood in France."—Cincinnati Enquirer.

### Indian Music

The Indians had various drums; a flute, with a scale of seven notes; a whistle, with a scale of five notes, and a rattle, made of dry gourds, loaded with sand or pebbles.

## What Makes Some Stores "Homey"?

The old Country Store with its ancient crackerbarrel and pot-bellied stove is fast disappearing from our midst, and there are many to mourn its passing. While its methods often lacked efficiency yet it played an honorable part in the history of our country and many a cooly aloof modern establishment could study its ways to advantage.

A quarter of a century ago the J. C. Penney Company was only a country store itself—the kind where home-folks buy. Today, although we have grown to lusty manhood, we are striving constantly to preserve that spirit of neighborliness and to demonstrate our friendship by the freshness and variety of our stocks, their high quality, the truthfulness of our advertising, and the large amount of value we give for your dollar.

All honor to the Country Store of Yesterday. It had a big job to do and it did it courageously and well. May we who follow in its footsteps preserve faithfully the tradition of service it has handed down.

In case she does not accept this offer, Miss Gray has extended another challenge to meet her in this same test in her glass front tank, in one of the large cities included in Miss Gray's vaudeville itinerary during the coming season, at Minneapolis if possible.

Mrs. Thompson will give more attention to this phase of her work during the summer and will endeavor to bring her "under water" time up to around three minutes so she will be able to make a good showing in case this return match can be arranged.

Miss Gray's act is one of the four or five which play vaudeville circuits every season and has won a host of admirers not only by her fine work but by her charming personality. While here she gave Mrs. Thompson every privilege in the use of the tank and diving equipment.

The Moose Lodge has secured the services of the local diver to give several exhibitions of fancy diving and under water work at Lum Park on the Fourth of July.

### BERT A. SHEW RITES

Being Conducted This Afternoon at Kalispel, Mont.; Was Former Brainerdite

The funeral of Bert A. Shew who was accidentally killed at Columbus Falls, near Kalispel, last Thursday when he was thrown from an automobile which was struck by a train at a crossing, sustaining a fractured neck, is being conducted this afternoon at Kalispel, Mont.

Surviving are his wife and two daughters, Edith and Bessie, of Kalispel, an aged mother Mrs. Emma Shew Jebe, and one sister, Mrs. J. H. Roderick, of Brainerd beside other relatives here.

### Choose Wedding Attendants

Miss Helen Beatrice Sehl, daughter of Mr. and Mrs. Nicholas Sehl, 1108 Seventh street southeast, whose marriage to Dr. Severin Koop of Duluth, will be an event of Wednesday morning at 9 o'clock at St. Lawrence church, has chosen her sister, Miss Agnes Sehl to be her maid of honor. The Misses Margaret Quinlan and Myrtle Proulx will attend as bridesmaids. Otis Skauge of Brainerd will be Dr. Koop's best man. Ushers will include M. Murphy of Minneapolis and Dr. John Thabes of Duluth. Little Sonny Coskran, nephew of the bride-elect, will act as ringbearer—Minneapolis Tribune.

### SYNTHETIC CHAMPAGNE MADE AND DESTROYED

New York, June 27.—(UP)—Two Belgian scientists at Columbia university have been given permission by prohibition authorities to manufacture synthetic champagne, port and sherry wines by the use of a newly discovered "secret substance," it was understood today.

The scientists agreed, it was said, to destroy any wine they manufacture as soon as tests are completed. The exact nature of the tests to be made was not specified.

C. Buyaeve and George Vingerhoets, the scientists, said it would take 40 days to complete manufacture of the wines, which will have 13 per cent alcoholic content. They will be made, it was said, from sugar, water, flavoring and the "secret substance."

## DAY THAT MARKED DOWNFALL OF GERM

August Is Notable in Annals of Surgery.

On August 12, 1865, a youngster, whose name survives only as James G., was run over by a cart in Glasgow and gained undying fame, for his leg, if not for himself. Some one carried the injured lad to the Glasgow Royal Infirmary, where presided an eager young surgeon, newly come from London, and possessed of an idea. His name was Joseph Lister and his idea was that those mysterious living germs which Pasteur had just been investigating had something to do with the suppuration then considered inevitable after any surgical operation, as well as after bone fractures in which the skin also is broken, fractures which surgeons class as "compound" ones. Young James had suffered that kind of fracture of his leg. Most surgeons of the day would have said, as probably some of them did say, that James was likely to go one-legged through the rest of his life.

Young Doctor Lister thought differently. He tried on the wound in the leg the new germ-discouraging methods which he had been thinking out and testing. The result was magical. No suppuration followed; the leg healed. On March 16, 1867, Lister used the case to illustrate the first publication of his methods in the London Lancet. Antiseptic surgery, perhaps the greatest of all the gifts of medical science to mankind, had begun.

A world in which the miracle of painless and germless surgery has become a commonplace finds it difficult to realize how short a time has passed since its invention. The centenary of Lister's birth has just been celebrated by the world's physicians. It is less than half as long since his methods of conquering the germs became common knowledge and common practice. Of all the surgical operations now classed as major ones more than three-fourths could never have been attempted so long as germ invaders were admitted with the knife. Nowadays, thanks to Lister and to anesthesia, surgery is perhaps the most advanced of all arts. Indeed, it is far in advance, as Sir Berkeley Moynihan said at one of the Lister celebrations, "of all the sciences upon which its future progress depends." Another Lister is needed to open some new field to its conquerors, perhaps another James to lend his leg to some renewed advance.

### Studying Street Noises

In an effort to bring about the elimination of many street noises, a survey is being made in the streets of Chicago with an instrument recently devised for recording and comparing the volume of different sounds. According to this instrument the average human voice records 40 and the streets noises on the level of one of Chicago's busiest corners is 657. The volume of noise encountered at the top of a tall building is about one-third that at the street level below. A steam engine pulling up a grade makes three times more noise than an electric motor doing the same amount of work on the same grade.

### Sure Earthworms Sing

If you don't believe that earthworms have voices and use them, tiptoe into the garden some warm summer evening, says Dr. Rudolph Ruedemann of the New York State museum, Albany, in a statement in Popular Science Monthly, confirming observations of the German scientist, Prof. O. Mangold.

Listening one evening in the garden, Doctor Ruedemann observed "a chorus of almost unbelievably small voices." Aided by a flashlight, he caught sever-

al worms in the act of "singing." The worms, he thinks, make these noises by dragging their minute bristles over the edges of their holes in the ground.

### Mule Long Imprisoned

When his mule disappeared, Dan Darling, pioneer farmer of Nixon, Texas, started a furling search for him, without avail, even putting out postcards with a reward for his return. Two weeks later, he happened to cross a dry creek in the middle of his pasture, and found the mule wedged in between two banks in such a way that he could not get out. Darling procured help, and released the mule, which had not suffered much in spite of his long stay without food or water.—Indianapolis News.

### Money in Old Silver Foil

The so-called "silver" foil is really tin or aluminum foil and a great deal of it is used and much of it wasted by being discarded after once having served as a wrapping. A Welsh charity drive took the form of a collection of this material for the period of one year and the amount collected represented a value of \$10,000, which was expended in endowing hospital beds. During the "drive" other money and valuable material was collected which brought the total up to \$30,000.

### Automatic

One of the Los Angeles furniture stores has a new davenport that they call "Cupid's Retreat." It looks very much like most other davenports but unwary bachelors are warned.

"Why do you call it 'Cupid's Retreat'?" a visitor ventured to inquire. "The upholstery is quite thin," explained the salesman, "and by the end of a year it is sure to be worn through, thereby displaying the sign: 'It's time to get married!'"

### MAKING UP

The newly married couple had fallen out. The quarrel lasted through the night, and next morning the wife, without speaking, went down to prepare breakfast. Thinking it was time to make peace, the husband went to the top of the stairs and called: "What's for breakfast, darling?" "Rats!" came back the tart reply. "All right, dear," replied hubby; "cook one for yourself, but boil me an egg."

### Pray Later

"Am dere anybody in de congregation what wishes prayer for deir failin's?" asked the colored minister.

"Yassuh," responded Brother Jones, "Ah's a spen'thri! an' Ah throws mah money 'round reckless like."

"Ve'y well. We will join in prayer fo' Brother Jones—jes' atfeh de collection plate have been passed."—Illinois Farmer.

## What Makes Some Stores "Homey"?

The old Country Store with its ancient crackerbarrel and pot-bellied stove is fast disappearing from our midst, and there are many to mourn its passing. While its methods often lacked efficiency yet it played an honorable part in the history of our country and many a coolly aloof modern establishment could study its ways to advantage.

A quarter of a century ago the J. C. Penney Company was only a country store itself—the kind where home-folks buy. Today, although we have grown to lusty manhood, we are striving constantly to preserve that spirit of neighborliness and to demonstrate our friendship by the freshness and variety of our stocks, their high quality, the truthfulness of our advertising, and the large amount of value we give for your dollar.

All honor to the Country Store of Yesterday. It had a big job to do and it did it courageously and well. May we who follow in its footsteps preserve faithfully the tradition of service it has handed down.

## IS IT WORTH WHILE TO KNOW?

In this month of June with its graduations from high schools and universities one considers the value of education. Quoting from a Minneapolis Journal editorial one is reminded that Minneapolis has recently graduated eighteen hundred students from its high school and considerably larger number of boys and girls are leaving the grades and preparing "to enter" in the autumn.

"Is it worth while to spend four years in high school?" many parents are perhaps asking themselves this summer, though not so many ask the question as asked it two or three decades ago. The advantages, with the splendid schools prepared as they are for the work, are now generally too apparent. But the question is asked. Not long ago, a wise teacher in the grade schools of Pierre, S. D., asked each of her pupils to write a letter to a business man, asking the question, "Is it worth while to go through high school?" One of these pupils selected for her adviser a man who knew. The Secretary of the Commercial Club replied as follows:

Is it worth while for a boy or girl to go through High School? If you had poor eyes, would you think it worth while to have your vision improved?

This is a wonderful world we live in, and the more we can learn about it, the better we can appreciate and enjoy our surroundings. Your most intimate companion will always be yourself. For that reason, you had better make yourself the best possible person you can.

If you go to High School you will study botany, which tells you about the different kinds of plants you see, and how they live; you will study your own language, which tells you how best to express your own ideas about things; you will study literature, which gives you the companionship of the greatest writers of the world; you will study chemistry, which tells you about the many substances that are in the things that are most familiar to you, and the rules by which they enter into those combinations; you will study physics, which will teach you the laws that govern the common and familiar things around you; you will study other languages, which will help you to understand better how our own speech has developed; you will study the history of other countries, and will see some of the causes that have made our own history; you will study zoology, the science of animal life, and learn how different sorts of birds, beasts and fishes and insects are adapted to the climate of different countries, so that the whole world is occupied by living creatures in one kind or another.

You will study some higher forms of mathematics, which will teach you to reason, and will develop your mind so that it can carry greater loads, remember more things, and act quicker than it would if it were untrained. You will not carry away all of the learning that you will get in High School, but you will learn where to go to get more, and how to find any information that you may need.

If you do all this you will make yourself a companion worth while, and when you get older your mind will not be out of a job.

I have known several old people who became disabled and could not work, and who had nothing to think about, because they had no education beyond their daily work, and when that was taken away from them they were bankrupt mentally as well as physically. With nothing in life to interest them, they died some years sooner than they would have done if they had had any source of amusement and recreation within themselves.

So, when you ask if it is worth while to go to High School, I must ask you, in return, if it is worth while to have one's eyes opened.

It is a question that may be asked and answered in much the same way at the door of any school or any university. Is it worth while to have your eyes opened? Is it worth while to be a more interesting and interested personage? Is it worth while anyhow to be alive in this astonishing world? Is it worth while to understand something of what so many men are spending their lives to find out?

So long as a person is alive, he is at school. He is always learning something—unless he makes more than ordinary effort to keep his mind closed and to prevent all intellectual advance. We are, or should be, trying to discover why we are here, how we came here, and what there is around us and how it works. Science is but organized and orderly knowledge.

It is a wonderful sight to see eighteen hundred students graduated from the high schools of this City. They have made a splendid start toward finding out interesting and valuable things that tend to make life more enjoyable and valuable. Yet they, like the rest of us, have hardly made a beginning toward the solution of the mysteries of this wonderful universe.

## FRATERNITIES

MRS. CALVIN COOLIDGE, first lady of the land, is a member of Pi Beta Phi. In speaking of fraternities her husband, President Coolidge, has well said:

"The rituals of nearly all fraternities are based upon religion. No true fraternity can rest upon another conception. It is for these reasons that they are supports of the true aims of society, strong reliances of ordered government according to public law, able advocates of the cause of righteousness and religion, and effective promoters of peace and good will among nations.

"Not to have faith in our fellow men is not to have faith in ourselves. It is to deny our mutual dependence upon each other and upon divine power. We live in an ordered universe ruled by law and by the guiding power of providence.

"Not to hold faith appears to me to attempt to fight against the stars in their courses. Such resistance must end in destruction. Faith in God is the beginning of religion."

We quote the above from the Phi Beta Phi quarterly and the Delta of Sigma Nu.

## CHAUTAUQUA SEASON OPENS TODAY

BRainerd's Chautauqua season opens today and a large attendance is expected at the Park theatre this evening. Committee chairmen have worked valiantly to make this a most successful season.

The brunt of the heavy work has fallen on the shoulders of the ticket committee. S. R. Adair has headed so many movements from Salvation Army to Boy Scouts, etc., that the public has become accustomed to letting Sam do it. Mr. Adair is always

most conscientious in the discharge of his duties, but in this case he cannot be successful unless all pledge holders, all friends of the Chautauqua help to fill the Park theatre this evening.

Let's make the opening night a most successful one. It brings encouragement to the committees as well as to those taking part in the programs.

NEVER before in the history of Greek letter societies has the growth of chapters been as rapid as during the past year. Every four and a half days a new fraternity chapter was born in the United States.

From the Daily Dispatch

June 26, 1902

A good story is told of how Charles McKay and his bride gave members of the wedding party the slip yesterday afternoon. All arrangements had been made at the house and they were to leave on the train for Duluth. A large number of friends went to the depot and waited patiently but while they were waiting Mr. and Mrs. McKay were speeding on their way to Deerwood. They engaged a team at Purdy's livery stable and drove to that place to catch the train, thus foiling any attempt at giving them rice showers etc.

Cashier G. D. LaBar of the First National bank returned this afternoon from his California trip. Mrs. LaBar will sojourn on the coast for a short time.

Mrs. C. D. Parker left this afternoon for Escobedo, Wis., having been called there on account of the death of Mr. Parker's mother.

Harry Pollard, who is directing "Uncle Tom's Cabin," had called for several hundred colored people for one of his big scenes. When the time for shooting arrived, only half a dozen darkies had put in an appearance. "Where's the rest of the bunch," asked the perturbed director. ## School Has One Student

Mrs. Helen Castle constitutes the faculty and Helen Chesbrough is the student body of the Elk Mountain (Wyo.) high school. Last year, when Helen was in the eighth grade, Elk Mountain had no high school. After her graduation, the school board, composed of Helen's parents and one other person, decided to move for higher education. They abolished the grammar school and established the high school. Wyoming has more than 200 one-year and two-pupil grammar schools, but this is the only one-stop high school.

## Ship's Displacement

Displacement is the amount of water displaced by a vessel. If a vessel is floating in still water the weight of the water it displaces equals the weight of the ship and everything on board. The displacement in cubic feet when floating in salt water divided by 35 gives the total weight of the ship and its cargo in tons, as 35 cubic feet of salt water weighs one ton.

## A Pleasant Recreation

If the comic artists are to be believed, the man who has to reduce by exercising and dieting is much to be pitied. Exercising is not so bad, but dieting is a trial, made worse by the appetite which exercising induces. And dieting nowadays always means eating vegetables such as carrots, spinach, lettuce, which are represented in the cartoons to be very unappetizing.

There may be a basis of truth in the view, if one's acquaintance with vegetables has been limited to the market products prepared without inspiration. If one who is overweight and who is suffering under the treatment for it could be offered a plan whereby pleasant exercise would be provided, which would at the same time produce the vegetables which he must live upon, and make them seem to him the finest foods on earth, should he not jump at the offer? Well, here it is: Make a home garden and grow your own food.

The labor involved in a garden 25x50 feet, which will grow vegetables enough for an average family, is about equal to three or four hole rounds of golf per week. The only hard work is spading the ground, which can be done in easy installments or by a hired man. Sowing the seed and cultivating between the rows then becomes a pleasant exercise, which, as the crops develop, is increasingly interesting. One constantly learns interesting lessons from the garden; and there is no lack of content—with insect pests—and triumph when the harvest is reaped.

All this interesting exercise can be obtained right in one's own back yard; and domestic relations are likely to be pleasanter than when golfing is the game. But the most valuable return to the person on a diet who does not like spinach and carrots is the changed view of these articles of food which growing them himself bestows.

The chief reason for this, no doubt, is that the vegetables from the home garden are quite different from those purchased in markets. Not only can varieties of better quality be grown, more tender, of smaller size, and better flavor—but they can be served at their best without regard to the prejudices and bargaining instincts of market buyers. Moreover, they can be served quickly and escape the deterioration in flavor which sets in with almost every vegetable soon after it is picked.

Carrots, when half grown, make a dish so delicious that no one can resist it, however devoted he may be to a meat diet. The market grower cannot sell his carrots half grown, if he would. Spinach from

the home garden is a different vegetable from that which has lain in the market, or it taken from a can. Swiss chard, New Zealand spinach, romaine lettuce, new peas, stringless beans, young beets—a long list might be made of table delicacies upon which a dieting gardener can feast without fear of violating the doctor's orders and without a thought for the forbidden delights of a meat diet.

Constance Talmadge and Ronald Coleman here in "Her Sister From Paris"

Where is your husband tonight?

Unless he's sitting quietly by the family fireside you ought to know!

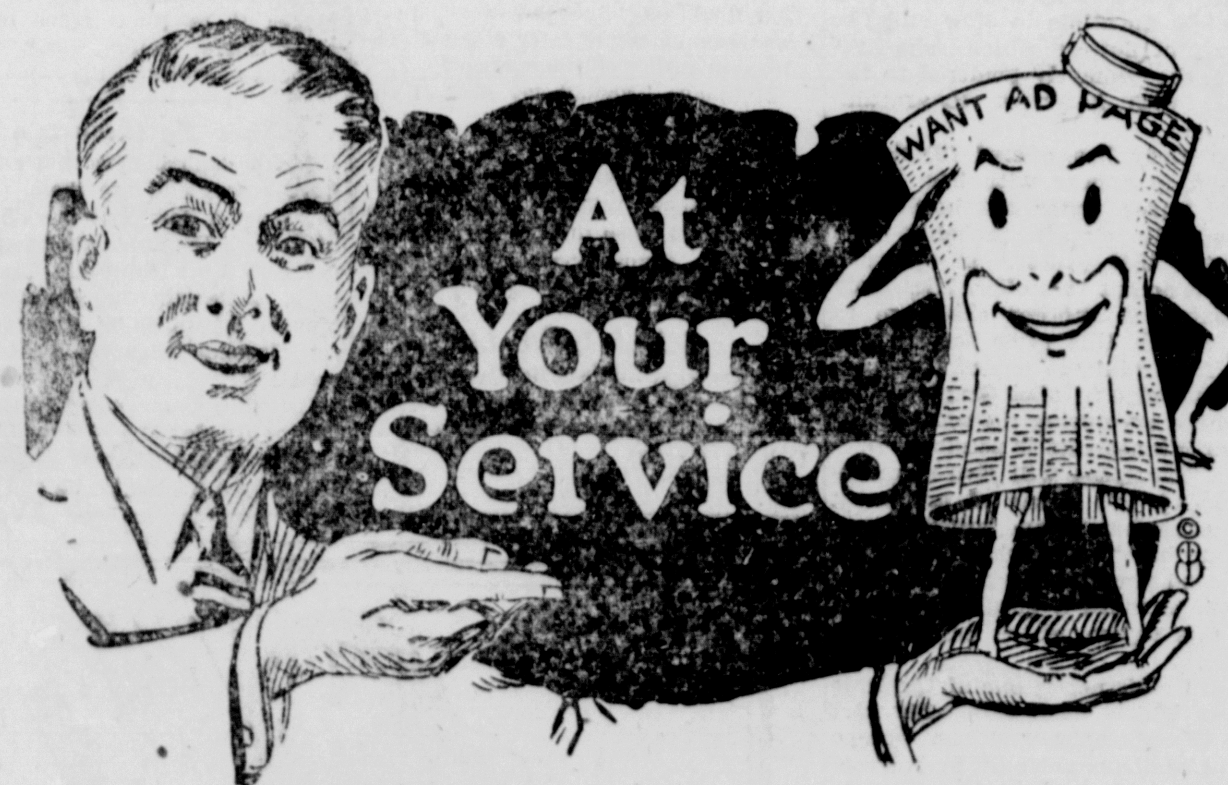

There's a new and amusing way to discover exactly what your husband's doing, and Constance Talmadge, reveals it in "Her Sister From Paris," her new starring comedy-drama of domestic life which opened yesterday at the Lyceum theatre and shows again tonight. Ronald Coleman is Constance's leading man.

## Tom Mix Proves His Unerring Marksmanship

The real bad men of the West are supposed to bathe only once in a while, but in "The Broncho Twister," his new Fox Films starring release, Tom Mix gives one a shower bath that shows how much confidence the cowboys of his outfit have in his marksmanship.

The final scenes picture a gun battle with Tom trapped in the stronghold of his enemy. He is trying to shoot his way out. A desperado has taken refuge behind a tree and directly over his head is an olla, or water jar, suspended from a limb. A stream of bullets from a "one man" machine gun, which Tom uses, smashes the jar and the man who stood with it touching his head never turned a hair until he dropped when a bullet shattered the jar and gave him a bath. This dangerous scene will be shown on the screen at the Lyceum theatre Tuesday and Wednesday.

## IS IT WORTH WHILE TO KNOW?

In this month of June with its graduations from high schools and universities one considers the value of education. Quoting from a Minneapolis Journal editorial one is reminded that Minneapolis has recently graduated eighteen hundred students from its high school and considerably larger number of boys and girls are leaving the grades and preparing "to enter" in the autumn.

"Is it worth while to spend four years in high school?" many parents are perhaps asking themselves this summer, though not so many ask the question as asked it two or three decades ago. The advantages, with the splendid schools prepared as they are for the work, are now generally too apparent. But the question is asked. Not long ago, a wise teacher in the grade schools of Pierre, S. D., asked each of her pupils to write a letter to a business man, asking the question, "Is it worth while to go through high school?" One of these pupils selected for her adviser a man who knew. The Secretary of the Commercial Club replied as follows:

Is it worth while for a boy or girl to go through High School? If you had poor eyes, would you think it worth while to have your vision improved?

This is a wonderful world we live in, and the more we can learn about it, the better we can appreciate and enjoy our surroundings. Your most intimate companion will always be yourself. For that reason, you had better make yourself the best possible person you can.

If you go to High School you will study botany, which tells you about the different kinds of plants you see, and how they live; you will study our own language, which tells you how best to express your own ideas about things; you will study literature, which gives you the companionship of the greatest writers of the world; you will study chemistry, which tells you about the many substances that are in the things that are most familiar to you, and the rules by which they enter into those combinations; you will study physics, which will teach you the laws that govern the common and familiar things around you; you will study other languages, which will help you to understand better how our own speech has developed; you will study the history of other countries, and will see some of the causes that have made our own history; you will study zoology, the science of animal life, and learn how different sorts of birds, beasts and fishes and insects are adapted to the climate of different countries, so that the whole world is occupied by living creatures in one kind or another.

You will study some higher forms of mathematics, which will teach you to reason, and will develop your mind so that it can carry greater loads, remember more things, and act quicker than it would if it were untrained. You will not carry away all of the learning that you will get in High School, but you will learn where to go to get more, and how to find any information that you may need.

If you do all this you will make yourself a companion worth while, and when you get older your mind will not be out of a job.

I have known several old people who became disabled and could not work, and who had nothing to think about, because they had no education beyond their daily work, and when that was taken away from them they were bankrupt mentally as well as physically. With nothing in life to interest them, they died some years sooner than they would have done if they had had any source of amusement and recreation within themselves.

So, when you ask if it is worth while to go to High School, I must ask you, in return, if it is worth while to have one's eyes opened.

It is a question that may be asked and answered in much the same way at the door of any school or any university. Is it worth while to have your eyes opened? Is it worth while to be a more interesting and interested personage? Is it worth while anyhow to be alive in this astonishing world? Is it worth while to understand something of what so many men are spending their lives to find out?

So long as a person is alive, he is at school. He is always learning something—unless he makes more than ordinary effort to keep his mind closed and to prevent all intellectual advance. We are, or should be, trying to discover why we are here, how we came here, and what there is around us and how it works. Science is but organized and orderly knowledge.

It is a wonderful sight to see eighteen hundred students graduated from the high schools of this City. They have made a splendid start toward finding out interesting and valuable things that tend to make life more enjoyable and valuable. Yet they, like the rest of us, have hardly made a beginning toward the solution of the mysteries of this wonderful universe.

## FRATERNITIES

MRS. CALVIN COOLIDGE, first lady of the land, is a member of Pi Beta Phi. In speaking of fraternities her husband, President Coolidge, has well said:

"The rituals of nearly all fraternities are based upon religion. No true fraternity can rest upon another conception. It is for these reasons that they are supporters of the true aims of society, strong reliances of ordered government according to public law, able advocates of the cause of righteousness and religion, and effective promoters of peace and good will among nations.

"Not to have faith in our fellow men is not to have faith in ourselves. It is to deny our mutual dependence upon each other and upon divine power. We live in an ordered universe ruled by law and by the guiding power of providence.

"Not to hold faith appears to me to attempt to fight against the stars in their courses. Such resistance must end in destruction. Faith in God is the beginning of religion."

We quote the above from the Phi Beta Phi quarterly and the Delta of Sigma Nu.

## CHAUTAUQUA SEASON OPENS TODAY

BRAINERD'S Chautauqua season opens today and a large attendance is expected at the Park theatre this evening. Committee chairmen have worked valiantly to make this a most successful season.

The brunt of the heavy work has fallen on the shoulders of the ticket committee. S. R. Adair has headed so many movements from Salvation Army to Boy Scouts, etc., that the public has become accustomed to letting Sam do it. Mr. Adair is always

most conscientious in the discharge of his duties, but in this case he cannot be successful unless all pledge holders, all friends of the Chautauqua help to fill the Park theatre this evening.

Let's make the opening night a most successful one. It brings encouragement to the committees as well as to those taking part in the programs.

NEVER before in the history of Greek letter societies has the growth of chapters been as rapid as during the past year. Every four and a half days a new fraternity chapter was born in the United States.

25 YEARS AGO

From the Daily Dispatch

June 26, 1902

A good story is told of how Charles McKay and his bride gave members of the wedding party the slip yesterday afternoon. All arrangements had been made at the house and they were to leave on the train for Duluth. A large number of friends went to the depot and waited patiently but while they were waiting Mr. and Mrs. McKay were speeding on their way to Deerwood. They engaged a team at Purdy's livery stable and drove to that place to catch the train, thus foiling any attempt at giving them rice showers etc.

Cashier G. D. LaBar of the First National bank returned this afternoon from his California trip. Mrs. LaBar will sojourn on the coast for a short time.

Frank Savage, a paving contractor of Chicago is in the city.

Editor Jewell of the Bismarck Tribune was in the city this morning having come from Blackduck where he and other North Dakota politicians spent a few days fishing.

Mrs. C. D. Parker left this afternoon for Boscobel, Wis., having been called there on account of the death of Mr. Parker's mother.

A 14½ lb. boy has arrived at the home of Mr. and Mrs. A. G. Shanks.

## Big Event

Harry Pollard, who is directing "Uncle Tom's Cabin," had called for several hundred colored people for one of his big scenes. When the time for shooting arrived, only half a dozen darkies had put in an appearance.

"Where's the rest of the bunch," asked the perturbed director.

"Reckon dey couldn't resist goin' to dat big dance we done heered about," said Rastus uneasily.

## School Has One Student

Mrs. Helene Castle constitutes the faculty and Helen Chesbrough is the student body of the Elk Mountain (Wyo.) high school. Last year, when Helen was in the eighth grade, Elk Mountain had no high school. After her graduation, the school board, composed of Helen's parents and one other person, decided to move for higher education. They abolished the grammar school and established the high school. Wyoming has more than 200 one-year and two-pupil grammar schools, but this is the only one-student high school.

## Ship's Displacement

Displacement is the amount of water displaced by a vessel. If a vessel is floating in still water the weight of the water it displaces equals the weight of the ship and everything on board. The displacement in cubic feet when floating in salt water divided by 35 gives the total weight of the ship and its cargo in tons, as 35 cubic feet of salt water weighs one ton.

## A Pleasant Recreation

If the comic artists are to be believed, the man who has to reduce by exercising and dieting is much to be pitied. Exercising is not so bad, but dieting is a trial, made worse by the appetite which exercising induces. And dieting nowadays always means eating vegetables such as carrots, spinach, lettuce, which are represented in the cartoons to be very unappetizing.

There may be a basis of truth in the view, if one's acquaintance with vegetables has been limited to the market products prepared without inspiration. If one who is overweight and who is suffering under the treatment for it could be offered a plan whereby pleasant exercise would be provided, which would at the same time produce the vegetables which he must live upon, and make them seem to him the finest foods on earth, should he not jump at the offer? Well, here it is: Make a home garden and grow your own food.

The labor involved in a garden 25x50 feet, which will grow vegetables enough for an average family, is about equal to three or four hole rounds of golf per week. The only hard work is spading the ground, which can be done in easy installments or by a hired man. Sowing the seed and cultivating between the rows then become a pleasant exercise, which, as the crops develop, is increasingly interesting. One constantly learns interesting lessons from the garden; and there is no lack of confidence with insect pests—and triumph when the harvest is reaped.

All this interesting exercise can be obtained right in one's own back yard; and domestic relations are likely to be pleasanter than when golfing is the game. But the most valuable return to the person on a diet who does not like spinach and carrots is the changed view of these articles of food which growing them himself bestows.

The chief reason for this, no doubt, is that the vegetables from the home garden are quite different from those purchased in markets. Not only can varieties of better quality be grown, more tender, of smaller size, and better flavor—but they can be served at their best without regard to the prejudices and bargaining instincts of market buyers. Moreover, they can be served quickly and escape the deterioration in flavor which sets in with almost every vegetable soon after it is picked.

Carrots, when half grown, make a dish so delicious that no one can resist it, however devoted he may be to a meat diet. The market grower cannot sell his carrots half grown, if he would. Spinach from

the home garden is a different vegetable from that which has lain in the market, or it taken from a can. Swiss chard, New Zealand spinach, romaine lettuce, new peas, stringless beans, young beets—a long list might be made of table delicacies upon which a dieting gardener can feast without fear of violating the doctor's orders and without a thought for the forbidden delights of a meat diet.

## MICKIE SAYS—

"RUNNIN' A NEWSPAPER IS QUITE A JOB. SEZ TH' BOSS 'YOU CAN PLEASE SOME OF TH' PEOPLE ALL OF TH' TIME, AND ALL OF TH' PEOPLE SOME OF TH' TIME, BUT NO EDITOR EVER PLEASED ALL OF TH' PEOPLE ALL OF TH' TIME.' SO TH' BOSS DOES THE BEST HE KIN AND LETS IT GO AT THAT."

# 14 INNING BATTLE SUNDAY ENDS IN TIE, 1-1

## WONDERFUL BALL SEEN IN BRAINERD SWANVILLE TILT

GAME CALLED AT 6 P. M. BE-  
CAUSE OF SUNDAY LAW;  
WILL BE PLAYED OFF

ENGBRETSON AND LYSTAD VIED  
FOR STRIKEOUT RECORD;  
BIG CROWD WATCHES

Both teams playing wonderful ball, Brainerd and Swanville battled to a 1-1 tie yesterday afternoon in a 14 inning game on the Municipal diamond. The game had to be called at six o'clock because of the Sunday baseball law. The tie will be played off in the near future, most likely on neutral territory.

Wally Engbretson pitched for the locals and did wonderful work on the mound with 13 strikeouts and 8 hits. Lystad, pitching for Swanville scored 14 strikeouts and was relieved in the twelfth inning after allowing nine hits.

A good sized crowd including a large number of rooters from Swanville sat tense while watching the progress of the game. Swanville scored first, in the fifth inning, Brainerd making its lone point in the ninth. Nutting, base runner, brought in the tying score on a hit made by Jarboe. Both gave remarkable performances throughout the unusual contest.

Brainerd's next contender in the Lake Region League will be Pierz at Pierz next Sunday.

## MINNESOTA BASEBALL

Albert Lea, Minn.—Timely hitting won for Albert Lea the game Sunday with Armours of South St. Paul and the championship of the Southern Minnesota League for the first half of the baseball season. The score was 6-1.

Mankato, Minn.—By defeating Fairmont Sunday, 3 to 1, the local baseball team remained in a tie for second place with St. James in the Southern Minnesota League standings.

Sherburne, Minn.—Sherburne was held to four hits by Sundberg, St. James hurler, and lost Sunday's game to the Saints, 5 to 1. The visitors concentrated their attack in the 7th inning, scoring three runs in that stanza.

Faribault, Minn.—Faribault suffered its seventh straight beating here Sunday when Owatonna defeated the Fairies, 4 to 1, in the Southern Minnesota baseball league. The visitors garnered nine hits off Herman, local pitcher.

## ONE-EYE CONNOLLY CHECKED IN ENGLAND AS GATE CRASHER

Liverpool, England, June 27.—(UP)—One-eye Connolly, en route to crash the gate at the Walker-Milligan fight, bumped his nose today against the inhospitably slammed gates of the British Isles.

Immigration authorities held him up here because he did not possess the amount of cash required of visitors to England. "What do I need money for?" One-eye asked indignantly. "I don't pay for anything."

"You need it to get ashore here, for one thing," an immigration official replied.

"Thanks," said Connolly, and sat down to figure out how to crash the gate into England.

He has three full days to find a way. The fight for the world middleweight championship between Mickey Walker and Tommy Milligan of Scotland occurs in London Thursday.

Liverpool is five hours away from London, so that if Connolly can do his stuff in Liverpool by 5 o'clock Thursday afternoon, all he'll have to do after that is crash his way to London and into Olympia, a half hour's subway ride from the station.

### LOSE TO LITTLE FALLS BY 4 POINTS

WAS SECOND DEFEAT OF BRAINERD COUNTRY CLUB IN THREE YEARS

JOE RYAN WAS LOW MEDALIST WITH SCORE OF 82; NEXT TOURNEY HERE JULY 10

Brainerd Country Club golfers lost the tournament yesterday afternoon at the Little Falls Town and Country Club by four points. The scoring was by the Nassau system. There were no good medal scores made on account of the high wind and inability to keep out of the rough.

It was the second defeat of the Brainerd representatives in three years, the first being evidenced at Hibbing last year when Brainerd went under by two points.

A return engagement with Deerwood, who lost to Brainerd a week ago Sunday, will be played on the Brainerd Country Club course July 10. This has been added to the regular schedule of the local club.

Joe Ryan was low medalist in yesterday's play with an 82 for 18 holes. The results follow:

Joe Ryan and W. R. Hiller won their match from Longley and Holst of Little Falls, one up.

## BILL BARRETT

### SOCKS TRIPLE, BASES LOADED

TIMELY HIT STARTS THE RALLY THAT NETTED CHICAGO SIX RUNS

GAVE THE PALE ROSE A 9 TO 7 VICTORY OVER DETROIT

(By United Press)

Yesterday's hero — Bill Barrett, White Sox outfielder, whose triple with the bases loaded in the seventh inning started the rally that netted Chicago six runs and gave the Pale Hose a 9-7 victory over Detroit.

Barrett previously had stepped into the hero role by singling in the fifth inning and bringing home a run which tied the count. Detroit later forged into the lead.

It was the only victory in the four game series for Chicago.

Lou Gehrig hit his twenty-second home run of the season in the second game of a double header between the Yankees and Philadelphia. The Mackmen won the opener 4-2 when Jack Quinn held New York to six hits but lost the second, 7-3. More than sixty thousand people crowded into Yankee stadium for the game.

Adolfo Luque held the Chicago Cubs to five hits and Cincinnati won, 8-5. Adams' error in the fifth inning started a Cincinnati rally that resulted in the three defeating runs.

St. Louis and Cleveland divided two well pitched games. In the opener Uhl permitted the Browns only four hits and Cleveland won, 2-0. In the second, although Gaston was hit hard, he kept the blows scattered and the Browns won, 7-3.

Pittsburgh strengthened their hold on first place in the National League by defeating St. Louis in the series opener, 9-3. Carmen Hill was effective against the world champion

hitters while the Pirates hit Jess Haines with ease.

Dazzy Vance permitted the Giants only six hits and Brooklyn won, 7-1. The Giants were unable to score until the ninth inning when they combined two hits for a run.

Washington scored in only one inning, the fourth, but ran up eight runs then which permitted an 8-7 victory over Boston. Goslin hit a home run for Washington while Buddy Myer, former Senator, hit a home run for Boston.

Toledo, O.—Columbus was able to touch Toledo hurlers for only five hits in each game of a double header and Toledo ran its consecutive victories to eleven, setting a new season's record. The Mud Hens won by scores of 4-3 and 4-1.

St. Paul, Minn.—Kansas City and St. Paul divided honors in a double header, the Saints taking the first, 5 to 4, and Kansas City shutting out the home team, 2 to 0, in the seven inning afterpiece. Grigsby hit a home run with Nicholson on in the seventh to win the second game.

Milwaukee, Wis.—Milwaukee advanced to within a half game of Kansas City in second place of the American Association by virtue of a double victory, 8 to 1 and 4 to 2, over Minneapolis. Orwoll, who just returned to the Brewer line-up after being out with a broken rib, held the Millers scoreless until the ninth when Bohne homered. Monn and Brief hit home runs in the second game.

## The Selling Smile

The Standard Oil Company (Indiana) needs no slogans about smiling. There is a certain sadness in the picture of a whole group of people smiling because they have been told to smile—that it's "good business." It seems questionable whether the "selling smile" really sells.

Employees of the Standard Oil Company (Indiana) smile—perhaps more frequently than average individuals—but when they smile it is because they feel like smiling—and for no other reason. Their smiles are spontaneous—happy—friendly—contagious.

It is inevitable that in the lives of 29,000 men and women there are times of misfortune—disappointment—sadness—when only the bravest of smiles survive. On the whole, however, the lives of the employees of the Standard Oil Company (Indiana) are unusually happy and contented.

They have work to do in the world that is human and helpful—they are interested in it—and they are secure in the knowledge that the rewards of their work will be in proportion to the effort and ability they put into it.

Employees of the Standard Oil Company (Indiana) know that the Company is concerned about their welfare, having given substantial proof of its concern by such measures as the Employees' Stock Purchasing Plans, the Death Benefit Plan and the Annuity Plan.

Faith in themselves, in the Company of which they are a part, in the products which they help to produce, gives strength and stability to their lives.

Employees of the Standard Oil Company (Indiana) have found one of life's few unfulfilling sources of satisfaction—work worthy of the best that is in them—and their attitude that "all's right with the world" is a healthy, wholesome result.

The 29,000 employees of the Standard Oil Company (Indiana) are loyal, contented workers. Strict integrity and fine principles rigidly adhered to, have inspired their loyalty. Fair treatment and a warm humanity have brought about their contentment.

This is "good business"—same—simple. For in business it is not only what a man does, but how he does it, that counts. Discontented workers do half-hearted jobs, and discontent creeps into the product.

The spirit of the employees of the Standard Oil Company (Indiana) is reflected in the products of the Company and in its service to the motoring public. Because every employee works wholeheartedly, the name of the Standard Oil Company (Indiana) has come to stand for certain definite solid things—absolute dependability—uniform products of the highest quality—eagerness and ability on the part of all employees to render the most helpful possible service to motorists.

The ability of the Standard Oil Company (Indiana) to hold and deserve the confidence of the thirty million people of the Middle West is due to the loyal and contented work of 29,000 men and women. Loyalty and contentment are priceless ingredients of all Standard Oil Company (Indiana) products.

# 14 INNING BATTLE SUNDAY ENDS IN TIE, 1-1

## WONDERFUL BALL SEEN IN BRAINERD SWANVILLE TILT

GAME CALLED AT 6 P. M. BE-  
CAUSE OF SUNDAY LAW;  
WILL BE PLAYED OFF

ENGBRETSON AND LYSTAD VIED  
FOR STRIKEOUT RECORD;  
BIG CROWD WATCHES

Both teams playing wonderful ball, Brainerd and Swanville battled to a 1-1 tie yesterday afternoon in a 14 inning game on the Municipal diamond. The game had to be called at six o'clock because of the Sunday baseball law. The tie will be played off in the near future, most likely on neutral territory.

Wally Engbretson pitched for the locals and did wonderful work on the mound with 13 strikeouts and 8 hits. Lystad, pitching for Swanville scored 14 strikeouts and was relieved in the twelfth inning after allowing nine hits.

A good sized crowd including a large number of rooters from Swanville sat tense while watching the progress of the game. Swanville scored first, in the fifth inning. Brainerd making its lone point in the ninth. Nutting, base runner, brought in the tying score on a hit made by Jarboe. Both gave remarkable performances throughout the unusual contest.

Brainerd's next contender in the Lake Region League will be Pierz at Pierz next Sunday.

## MINNESOTA BASEBALL

Albert Lea, Minn.—Timely hit-  
ting won for Albert Lea the game  
Sunday with Armours of South St.  
Paul and the championship of the  
Southern Minnesota League for the  
first half of the baseball season. The  
score was 6-1.

Mankato, Minn.—By defeating  
Fairmont Sunday, 3 to 1, the local  
baseball team remained in a tie for  
second place with St. James in the  
Southern Minnesota League stand-  
ings.

Sherburne, Minn.—Sherburne was  
held to four hits by Sundberg, St.  
James hurler, and lost Sunday's game  
to the Saints, 5 to 1. The visitors  
concentrated their attack in the 7th  
inning, scoring three runs in that  
stanza.

Faribault, Minn.—Faribault suf-  
fered its seventh straight beating  
here Sunday when Owatonna de-  
feated the Fairies, 4 to 1, in the  
Southern Minnesota baseball league.  
The visitors garnered nine hits off  
Herman, local pitcher.

Hodgins threw a baseball 254 feet,  
1 inches.

## ONE-EYE CONNOLLY CHECKED IN ENGLAND AS GATE CRASHER

Liverpool, England, June 27.—(UP)—  
One-eye Connolly, en route to crash  
the gate at the Walker-Milligan fight,  
bumped his nose today against the  
inexplicably slammed gates of the  
British Isles.

Immigration authorities held him up  
here because he did not possess the  
amount of cash required of visitors  
to England.

"What do I need money for?" One-  
eye asked indignantly. "I don't pay  
for anything."

"You need it to get ashore here, for  
one thing," an immigration official re-  
plied.

"Thanks," said Connolly, and sat  
down to figure out how to crash the  
gate into England.

He has three full days to find a way.  
The fight for the world middleweight  
championship between Mickey Walker  
and Tommy Milligan of Scotland oc-  
curs in London Thursday.

Liverpool is five hours away from  
London, so that if Connolly can do his  
stuff in Liverpool by 5 o'clock Thurs-  
day afternoon, all he'll have to do af-  
ter that is crash his way to London  
and into Olympia, a half hour's sub-  
way ride from the station.

### LOSE TO LITTLE FALLS BY 4 POINTS

WAS SECOND DEFEAT OF BRAIN-  
ERD COUNTRY CLUB IN  
THREE YEARS

JOE RYAN WAS LOW MEDALIST  
WITH SCORE OF 82; NEXT  
TOURNEY HERE JULY 10

Brainerd Country Club golfers lost  
the tournament yesterday afternoon  
at the Little Falls Town and Coun-  
try Club by four points. The scor-  
ing was by the Nassau system. There  
were no good medal scores made on  
account of the high wind and in-  
ability to keep out of the rough.

It was the second defeat of the  
Brainerd representatives in three  
years, the first being evidenced at  
Hibbing last year when Brainerd  
went under by two points.

A return engagement with Deer-  
wood, who lost to Brainerd a week  
ago Sunday, will be played on the  
Brainerd Country Club course July  
10. This has been added to the  
regular schedule of the local club.

Joe Ryan was low medalist in yester-  
day's play with an 82 for 18 holes.  
The results follow:

Joe Ryan and W. R. Hiller won  
their match from Longley and Holst  
of Little Falls, one up.

B. W. Orne and John Linneman  
lost their match to Lebis and Holst,  
of Little Falls, one up.

A. C. Weber and Frank Johnson  
lost their match to Landahl and Hil-  
ler, of Little Falls, three up.

J. Krekelberg and W. E. Erickson  
won their match from Zechupening  
and Woodworth, Little Falls, three  
up.

Dan Croswell and Les Croswell  
lost their match to Miller and Mus-  
sie, Little Falls, one up.

F. A. Farrar and W. H. Cleary  
lost their match to Ryan and Peter-  
son, Little Falls, three up.

E. O. Webb and W. C. Cobb won  
their match from Jensen and Wefel,  
Little Falls, one up.

Dr. E. C. Herzog won his match  
from Dr. Roberts, Little Falls, one  
up.

W. P. Tyrholm and E. W. Wise  
won their match from Peterson and  
Amundson, Little Falls, one up.

## BILL BARRETT

### SOCKS TRIPLE, BASES LOADED

TIMELY HIT STARTS THE RALLY  
THAT NETTED CHICAGO  
SIX RUNS

GAVE THE PALE HOSE A 9 TO 7  
VICTORY OVER  
DETROIT

(By United Press)

Yesterday's hero — Bill Barrett,  
White Sox outfielder, whose trips  
with the bases loaded in the seventh  
inning started the rally that netted  
Chicago six runs and gave the Pale  
Hose a 9-7 victory over Detroit.

Barrett previously had stepped in-  
to the hero role by singling in the  
fifth inning and bringing home a run  
which tied the count. Detroit later  
forged into the lead.

It was the only victory in the  
four game series for Chicago.

Lou Gehrig hit his twenty-second  
home run of the season in the sec-  
ond game of a double header be-  
tween the Yankees and Philadelphia.  
The Mackmen won the opener 4-2  
when Jack Quinn held New York to  
six hits but lost the second, 7-3.  
More than sixty thousand people  
crowded into Yankee stadium for  
the game.

Adolfo Laque held the Chicago  
Cubs to five hits and Cincinnati won,  
8-5. Adams' error in the fifth in-  
ning started a Cincinnati rally that  
resulted in the three defeating runs.

St. Louis and Cleveland divided  
two well pitched games. In the  
opener Uhl permitted the Browns  
only four hits and Cleveland won,  
2-0. In the second, although Gaston  
was hit hard, he kept the blows scat-  
tered and the Browns won, 7-3.

Pittsburgh strengthened their  
hold on first place in the National  
League by defeating St. Louis in the  
series opener, 9-3. Carmen Hill was

Dazzy Vance permitted the Giants  
only six hits and Brooklyn won, 7-1.  
The Giants were unable to score un-  
til the ninth inning when they com-  
bined two hits for a run.

Washington scored in only one in-  
ning, the fourth, but ran up eight  
runs then which permitted an 8-7  
victory over Boston. Goslin hit a  
home run for Washington while  
Buddy Myer, former Senator, hit a  
home run for Boston.

Toledo, O.—Columbus was able to  
touch Toledo hurlers for only five  
hits in each game of a double header  
and Toledo ran its consecutive vic-  
tories to eleven, setting a new sea-  
son's record. The Mud Hens won  
by scores of 4-3 and 4-1.

St. Paul, Minn.—Kansas City and  
St. Paul divided honors in a double  
header, the Saints taking the first,  
5 to 4, and Kansas City shutting out  
the home team, 2 to 0, in the seven  
inning afterpiece. Grigsby hit a  
home run with Nicholson on in the  
seventh to win the second game.

Indianapolis, Ind.—After being  
swamped, 13 to 2, in the first con-  
test, Columbus recovered and shut  
out Indianapolis, 4 to 0, in the sec-  
ond game of a double header. Rus-  
sell, Florence and Boone hit homers  
in the first game. Each made four  
hits in the second.

Milwaukee, Wis.—Milwaukee ad-  
vanced to within a half game of  
Kansas City in second place of the  
American Association by virtue of a  
double victory, 8 to 1 and 4 to 2,  
over Minneapolis. Orwell, who just  
returned to the Brewer line-up after  
being out with a broken rib, held  
the Millers scoreless until the ninth  
when Bohne homered. Monn and  
Brief hit home runs in the second  
game.

## LAUDS PREDECESSOR

Says Judge Stanton Was a Worker,  
Never Evading a  
Responsibility

Asking the cooperation of the members of the Crow Wing County Bar Association and stating that it was to him a great pleasure to come to this county, Judge Graham Torrance, Bemidji, opened district court this morning, his first official act in his new judicial duties.

Judge Torrance was recently appointed by Governor Theodore Christianson to succeed the late Judge C. W. Stanton for the 15th Judicial District.

His remarks on the resuming of court this morning were laudatory of the good work carried on by his predecessor.

"Judge Stanton was a worker, he never evaded a responsibility, and it is my hope that some day I may measure up to the efficiency set by my late predecessor," said Judge Torrance.

Judge W. S. McClenahan introduced the judge to the audience which comprised chiefly lawyers in this city and jurors waiting to be called.

With the opening of court the case of C. W. Cunningham and Grace Cunningham vs the Northern Home Furnishing Co. was resumed. The law firm of Swanson, Swanson and Swanson represents the plaintiffs while the firm of Ryan, Ryan and Ryan appeared for the defendant.

## MRS. LUTCHER STARK IS ROTARY SPEAKER

Prominent Chairman of Settlement  
Work, Pi Beta Phi, to Address  
Local Rotarians

### HUSBAND NOTED ROTARIAN

Was Rotary District Governor of  
Texas and Vice President of  
Rotary International

Mrs. Lutzer Stark, of Orange, Texas, chairman of settlement work of Pi Beta Phi, fraternity, will address Brainerd Rotary club tomorrow. She is the wife of a wealthy lumberman of the south and she has had the advantage of extended travel and education and like her husband has a remarkably keen and brilliant mind, the powers of quick observation and the talent of picturesque, expressive language.

When Mrs. Stark heard of the chairman of Brainerd Rotary club seeking for speakers, her kindly heart took pity and she said: "I'll speak for you and arrange a nice program, too. My husband has been a Rotarian so long, I know all about those program troubles. And your meetings, like most of Rotary, start promptly at 12:15 p. m."

So Brainerd Rotary hopes that tomorrow some of our Rotarian club member wives will also be present to hear this gifted woman tell what Pi Beta Phi is doing with its settlement school in the mountains of Tennessee, helping to make good citizens out of this material, showing them how to use their hands and heads. Mrs. Stark will be accompanied by two girls from the school who will play guitar and sing the songs of the Tennessee mountains.

The settlement school is one of the outstanding features of welfare work carried on by the fraternity.

Associated with the chairman in this committee work are Treasurer Miss Ethel Curryer, Indianapolis, Ind.; Mrs. Agnes Miller Turner, Portland, Ore.; Mrs. Dorothy Smallwood Geare, Washington, D. C.; Mrs. Gertrude Browne Freeman, Lakeland, Ohio; Miss Evelyn Bishop of the Pi Beta Phi Settlement school at Gatlinburg, Sevier county, Tennessee.

Miss Bishop is arranging a comprehensive exhibit of basketry, linens, towels, scarfs, etc., at Breezy Point Lodge.

Last week's Rotary program was devoted to glorification of the longest day of the year and Rev. August Samuelson, pastor of Clara Lutheran church, told of the place in folk lore, in history and in the lives of the people the Midsummer festival meant in Scandinavian countries and especially Sweden. Donald Ryan, of the law firm of Ryan, Ryan & Ryan, spoke on "The Constitution," explained its provisions and said eternal vigilance was necessary to insure protection of our liberties.

At the previous session Rev. H. F. Damon of the First Baptist church spoke on America and gave a most patriotic address.

All the world stands by the fellow who plays square!

He may be poor. He may not possess the material things for playing the part of the good fellow. But—he has one quality that money can not buy. And that is, when he makes an obligation or a promise, he keeps it no matter what the cost or what unforeseen difficulties arise. Little wonder then, that the world pays him the fine tribute of—"There's a man we can trust! His word is as good as gold! More power to him!"

Indeed, a man may possess all the riches on earth. Yet, one misstep, one unfulfilled promise, is apt to bring him a doubtful reputation. His friends may treat him as though nothing had happened, but—down deep in their hearts—they know he is not to be trusted. That his word doesn't hold good. And try as he may, he can't overcome that misfortune. So what good is his money?

**Keep Promises**  
Nay, a promise is a promise. And it is to be kept! If you loan anybody a sum of money—perhaps, "pinching" your own purse to do it—you have a right to expect that person to pay you back in due time. Or, at least, as soon as his ability will permit. If he side-steps the issue—and you know full well that he can pay his obligation—he, in time, becomes your enemy in a sort of way. You'll never make him another loan and you know he is not worth doing business with. And when his friends hear about it, they too, will try to avoid him "financially."

Yet there are many who think lightly of their obligations. Especially in dealing with our local merchants and professional people. Extending you credit, they are really making you a loan. Is it not your duty then to see that it is paid promptly.

Car Occupants Tips  
Toe While Diving

While filling the radiator of his car with water last evening on Highway No. 27 at Fort Ripley, John Joki, Brainerd man, was struck by a Cadillac car driven by Henry Haue, of Minneapolis. He miraculously escaped serious injuries in the accident.

Mr. Haue immediately brought Mr. Joki to the Brainerd hospital where on examination by a local doctor Mr. Joki was reported to be only slightly injured.

The accident as first reported was to the effect that Mr. Joki had been caught between two cars on the road and thrown high in the air, landing on his head and causing severe injuries. This report was not authentic.

Four girls escaped with slight injuries when the car they were riding in overturned on highway No. 19 Saturday night. The top of the car was torn away but on righting the automobile the girls were able to proceed. They were on their way to a dance.

One tourist girl broke her toe yesterday while diving from a spring board at one of the resorts.

Two girls have been returned to their homes, one is lodged in the county jail awaiting hearing and another is reported married in Duluth, following desires of four local girls, all juveniles, to leave home late last week and whose attempts at run-away have been frustrated through the efforts of Miss Rebecca Cassoll, secretary of the child welfare board.

Three of the girls are reported to have attempted to run away with men from the carnival which showed here last week. They were apprehended on the verge of their leaving the city after they had been reported to have been out late for three nights in succession at the carnival.

One of the girls was taken into custody from a local hotel where she told welfare workers that she was waiting for "her man" to come back and take her away. Authorities are planning the arrest of the man should he return to the city.

The girl reported to be married in Duluth is said to be only 14 years old. Police have been notified to take her and her husband into custody when located.

Trees of Lawn

The W. C. T. U. met at the summer home of Mrs. A. P. Appar, June 24. In the absence of Mrs. Grondin, the president, Mrs. A. C. Erickson presided. Mrs. Erickson read from the eighth chapter of Matthew, Mrs. Appar lead in prayer and a song "Jesus Savior Pilot Me," was sung by all.

The following program was given: Recitation, A welcome—Thayes Butcher. Reading, Boil It Down—Katherine Spencer.

Song, Shepherd of Love—The Misses Spencer, Armstrong, Gardner, and Wolhart.

Recitation, How You Tackle Your Work—Helen Peters.

Recitation, The Lost Purse—Faith Spicer.

Recitation, Our Colors—Margaret Zanders.

Recitation, When Prohibition's Going to End—Gladys Zanders.

Song, Wonderful Peace—Four girls.

Reading, Mother's Party Dress—Leta Wolhart.

Reading, Dreams Ahead—Laura Armstrong.

Reading, Puttering Around—Mrs. Wolhart.

A delicious picnic lunch was served on the tables spread under the trees on the lawn. Several visitors were present, among them the Misses Armstrong, Gardner, Wolhart and Spencer, teachers in the Baptist Vacation School. All voted Mrs. Appar a royal entertainer.

## SIX INJURED IN WEEK-END MISHAPS

John Joki Struck by Car at Fort  
Ripley While Filling Radiator  
With Water

### TAKEN TO HOSPITAL

Car Occupants Tips  
Tourist Girl Breaks  
Toe While Diving

While filling the radiator of his car with water last evening on Highway No. 27 at Fort Ripley, John Joki, Brainerd man, was struck by a Cadillac car driven by Henry Haue, of Minneapolis. He miraculously escaped serious injuries in the accident.

Mr. Haue immediately brought Mr. Joki to the Brainerd hospital where on examination by a local doctor Mr. Joki was reported to be only slightly injured.

The accident as first reported was to the effect that Mr. Joki had been caught between two cars on the road and thrown high in the air, landing on his head and causing severe injuries. This report was not authentic.

Four girls escaped with slight injuries when the car they were riding in overturned on highway No. 19 Saturday night. The top of the car was torn away but on righting the automobile the girls were able to proceed. They were on their way to a dance.

One tourist girl broke her toe yesterday while diving from a spring board at one of the resorts.

### CARD OF THANKS

We wish to express our sincere appreciation to Rev. Errington, friends and neighbors, the I. O. O. F. lodge and other organizations for their kind thoughtfulness during our recent bereavement.

MRS. I. U. WHITE,  
and family.

## FOUR GIRLS HAVE WANDER LUST

Attempts at Run Away Late Last  
Week Frustrated by Well-  
fare Workers

### ONE REPORTED MARRIED

One Taken Into Custody From Local  
Hotel Where She Waited  
Return of Man

Two girls have been returned to their homes, one is lodged in the county jail awaiting hearing and another is reported married in Duluth, following desires of four local girls, all juveniles, to leave home late last week and whose attempts at run-away have been frustrated through the efforts of Miss Rebecca Cassoll, secretary of the child welfare board.

Three of the girls are reported to have attempted to run away with men from the carnival which showed here last week. They were apprehended on the verge of their leaving the city after they had been reported to have been out late for three nights in succession at the carnival.

One of the girls was taken into custody from a local hotel where she told welfare workers that she was waiting for "her man" to come back and take her away. Authorities are planning the arrest of the man should he return to the city.

The girl reported to be married in Duluth is said to be only 14 years old. Police have been notified to take her and her husband into custody when located.

## SOME PI BETA PHI CONVENTION NOTES

Pelican Lake, Breezy Point, and  
Brainerd Spell Happiness for Some  
700 Fraternity Members

Largest Gathering of National Society,  
Officers and Delegates  
Enthusiastic

The University of Toronto girls, all students, included these Pi Beta Phi members: the Misses Miriam Appleby, Helen Appleby, Ruth Pearce, Harriet Pearce, Marjorie Medland, Dorothy Brandon, Dae Lyon, Joe Booth, Dorothy Harding, Amy Davidge and Dorothy Rogers. Accompanying them from Duluth was Miss Eppie Logeman of Galesburg, Ill.

Miss Mary Easton, Berkeley, Cal., is a student of the University of California and a relative of Mrs. F. W. Wieland. She called them up when she arrived on the evening train from the west and was entertained by Mr. and Mrs. Wieland before joining her fraternity sisters. She is a member of the art class and assisted to fashion the University of California exhibit.

Mrs. F. C. Sigler, Indianapolis, Ind., national historian, is well acquainted with Minnesota, having motored here. "If I ever got a thrill," said a Canadian member on the special train, "it was when I looked down the Brainerd depot vista and saw the Canadian flag waved by the group from the University of Toronto."

The wonderful executive ability shown by Mrs. W. H. Fawcett is receiving commendation on all sides. No detail before or during the convention has been overlooked by this remarkable woman. She made a short address at the opening of the convention last night.

The athletic tournaments promise to be well patronized and entries started to flow in Sunday.

The Western Union of Brainerd sent a special messenger to the lodge to gather the reams of telegrams sent home announcing safe arrivals.

All collections of hotel fees, fraternity fees, baggage transfers, even hotel register signing was done on the special trains and all these items attended to before the specials discharged their passengers at Pequot. In less than half an hour every dele-

JANTZENS are styled for swimming  
... as well as beach parade

THERE'S an outstanding dash and grace to the Jantzen-clad swimmer. Women express it as "stunning" . . . "smart" . . . "chic" . . . Men say, "Now, that's my idea of a wonderful swimming suit." Many are the reasons why Jantzen is such a sensation. First of all, it fits—as all your life you've wished a swimming suit might fit—without wrinkling.

## RECOGNIZED LONDON

First Radio Fan—I got Honolulu on the radio last night.

Second Radio Fan—How do you know?

F. R. F.—I could hear them playing their ukuleles.

S. R. F.—That's nothing. I picked up London.

F. R. F.—Sure?

S. R. F.—Yes. I could hear them drop their h's.—Portland Express.

## Soda-Fountain Subtleties

Young Lady—What kind of sandwiches do you have?

Soda Clerk—Ham bread, ham roll, cheese on bread, cheese on roll, chicken salad on bread, tongue roll, tongue on bread, egg salad roll and bread, tomato on bread, combination salad rolls, hot dogs.

Young Lady—All right, bring me a dish of chocolate ice cream.

## My Dear! My Dear!

It was an old car and the tail lights had gone out suddenly. The driver turned to his pretty young companion and asked her to go to the nearest shop to see if she could obtain some oil. She went. After some time she came back.

"Well?"

"I couldn't get any," she said. "They all said they had no red oil."

## VERY AFFECTIONATE

Hubby—Tom's wife is very affectionate. She calls him "the king."

Wife—And then crowns him with a rolling pin.

## Hard Boiled

Don't be too rough when forth you go  
A prize to catch  
A hard-boiled egg, you surely know,  
Will never hatch.

## Truthful

Jiggers—I'd like to find out who wrote that anonymous letter about me to the gov'nor.

Friend—What did he say?

"That I was a lazy, worthless scoundrel, an idle, drunken loafer, who spent all my spare time in billiard rooms."

"By Jove! It was some one who knew you!"

## Illiterate

Mistress (to prospective maid)—You tell me you worked three years for a professor's wife and she didn't give you the least recommendation?

Maid—No; but that's because she didn't know how to write.

## Lucky Seventh

Phyllis—When I accepted George, he said he was in the seventh heaven.

Joan—Quite possible, my dear, he's been engaged six times before.

## NOT ENTIRELY DUMB

"He was scared speechless."  
"But his teeth chattered all the time."

## A Common Bond

My neighbor has a growing son;  
I have a growing son, beside.  
Each has one car. So just for fun  
We often take a trolley ride.

## Plagiarism

Ethel—But, papa, he says he cannot live without me.

Father—Tell him to think up a new one; I told that to your mother.

## The Hurried Touch

"Do you remember your class yell?"

"No, and it isn't necessary. Most of my old college mates who call on me address me in low tones."

## Indian Chief Clings to Wilderness Home

Near the spot where the Stars and Stripes was first unfurled in Washington, Long Jim, last of a great Indian war chief family, is making his stand against civilization.

The wilderness home of the war chief of the Chelan, Methow and Okanogan Indians, has changed little since the first visit of Astor fur traders in 1811. Virtually the only concession Long Jim has made to advancing civilization has been the education, in the white man's schools, of his daughter, Princess Jessie Jim. She was proclaimed Princess America II at the national Indian congress at Seattle last July and later an honor guest at Atlantic City.

Long Jim took his present home along the Okanogan river on the Colville reservation after years of bitter struggle against early settlers and United States Indian agents. The old chief desired to live and die on the land of his fathers at the mouth of Lake Chelan, in north central Washington.

One of his great fights ended when Indian agents put him in jail for nine weeks for refusal to give up tribal lands on Lake Chelan to white men. Long Jim was released when court rules he was entitled to a square mile of his tribal holdings. But having controlled a vast territory from the Cascade mountains to the Columbia river, he refused to accept the allotment.

Bitter against the white man, he left the ancient Indian home and moved to an old camp ground on the reservation, 50 miles east. He paid his cousin, Columbia Jim, to move and leave him in solitary possession of the wild tract. He still refuses to accept the settlement involving his relinquishing the Chelan holdings or to accept any money accrued from it.

## High Cost of Dying

A colored man came into a ticket office and asked for two round-trip tickets to Charleston. The agent knew him and asked who was going with him.

"My brother," said the colored man. "Your brother?" asked the agent.

"Where is he?"

"Out there in a box. He's daid," answered the colored man.

"Well, if he is dead you don't want a return ticket for him."

"Yes, suh," said the colored man; "You see, we ain't goin' to bury him in Sha'leston; but we have about forty kinsfolks down there, and we figured it would be cheaper to carry him down to Sha'leston fo' de funer'l service and bring him back, than to bring the whole family up here."

## Fight Indian Usurers

To protect the poor of India from a form of usury which not only blinds the borrower for life, but also ties up his sons and grandsons, the Young Men's Christian association is establishing banks in that country. More than 400 have been established in towns and villages by D. Swamidos, the native secretary, and more are being added. Representatives of the association visit the places and, as they have no offices, conduct their business under mango trees. In order to combine their campaign of hygiene and finance, Young Men's Christian association officials often compel an applicant to open the windows of his home or to wash her dirty baby before the loan is made.

## Sounds That Soar

In common with an investigation of city traffic noises in London, interesting tests were made to determine how high some of the sounds are carried, says Popular Mechanics Magazine. The measurements were made from a balloon, as an airplane would have drowned out all other noises than that of its engine. Rumble of vehicles was heard as high as 2,500 feet, while the whistle of a locomotive was audible at an altitude of a mile and a half. A gunshot carried 5,400 feet high, and music was distinguished at a height of 4,200 feet. The investigators were surprised to discover that the croaking of frogs could be heard over half a mile above the ponds.

## Fox and Terrier Battle

Followers of the Blenheim foxhounds witnessed a unique incident when, in Yew Crag, in the Naddle valley of England, a hard-pressed fox took refuge on a rock ledge in the face of the precipitous crag, out of reach of hounds and men. The whip of the terrier, however, crept to this fastness, and for fully two minutes fox and dog inflicted punishment on each other. The fox, crouching against the wall of the rock, suffered most, and leaped out of the crag. The terrier following, missed its footing and fell 40 feet, but, alighting in deep snow, escaped serious injury. The fox was afterward killed by members of the hunting party.

## Hard to Stop Cock Fights

How to clear the Philippines of the increasing number of cock fights is a problem puzzling those who wish to stop the sport that is now flourishing in many parts of the islands. One plan recently advanced is to introduce counter sports to draw the interest of the young from the cockpits. Those who have investigated say that cock fighting is the only form of amusement in the rural communities, and that those who follow it do not do so for the sake of gambling so much as for the association with other men, and thus the cockpit is really the community club.

## Purely American Bird

The humming bird is found only on the American continent. It is closely allied to the swift, and there are several hundred species native from Labrador to Patagonia. The humming bird does not exactly move backward, but by the use of the pectoral muscles of the wing beats the air with a rapidity which enables the bird to remain stationary and to make such darting movements that apparently the flight may be backward.

## Sheep Growers' Handicap

In Australia conditions for sheep raising are so ideal that shrinkage is light. The Ohio region in this country produces as good wool as is grown anywhere. The sheep growers in the western range states have hardships to overcome in the way of climatic conditions that handicap them somewhat.

## RECOGNIZED LONDON

First Radio Fan—I got Honolulu on the radio last night.

Second Radio Fan—How do you know?

F. R. F.—I could hear them playing their ukuleles.

S. R. F.—That's nothing. I picked up London.

F. R. F.—Sure?

S. R. F.—Yes. I could hear them drop their h's.—Portland Express.

## Soda-Fountain Subtleties

Young Lady—What kind of sandwiches do you have?

Soda Clerk—Ham bread, ham roll, cheese on bread, cheese on roll, chicken salad on bread, tongue roll, tongue on bread, egg salad roll and bread, tomato on bread, combination salad rolls, hot dogs.

Young Lady—All right, bring me a dish of chocolate ice cream.

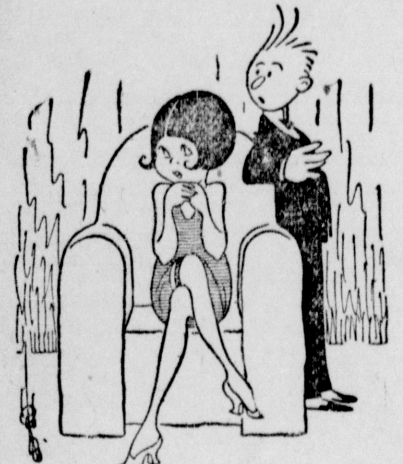

## My Dear! My Dear!

It was an old car and the tail lights had gone out suddenly. The driver turned to his pretty young companion and asked her to go to the nearest shop to see if she could obtain some oil. She went. After some time she came back.

"Well?"

"I couldn't get any," she said. "They all said they had no red oil."

## VERY AFFECTIONATE

Hubby—Tom's wife is very affectionate. She calls him "the king."

Wife—And then crowns him with a rolling pin.

## Hard Boiled

Don't be too tough when forth you go A prize to catch.

A hard-boiled egg, you surely know, Will never hatch.

## Truthful

Jiggers—I'd like to find out who wrote that anonymous letter about me to the gov'nor.

Friend—What did he say?

"That I was a lazy, worthless scoundrel, an idle, drunken loafer, who spent all my spare time in billiard rooms."

"By Jove! It was some one who knew you!"

## Illiterate

Mistress (to prospective maid)—You tell me you worked three years for a professor's wife and she didn't give you the least recommendation?

Maid—No; but that's because she didn't know how to write.

## Lucky Seventh

Phyllis—When I accepted George, he said he was in the seventh heaven.

Joan—Quite possible, my dear, he's been engaged six times before.

## NOT ENTIRELY DUMB

"He was scared speechless."

"But his teeth chattered all the time."

## A Common Bond

My neighbor has a growing son; I have a growing son, beside. Each has one car. So just for fun We often take a trolley ride.

## Plagiarism

Michael—But, papa, he says he cannot live without me.

Father—Tell him to think up a new one; I told that to your mother.

## The Hurried Touch

"Do you remember your class yell?"

"No, and it isn't necessary. Most of my old college mates who call on me address me in low tones."

## Indian Chief Clings to Wilderness Home

Near the spot where the Stars and Stripes was first unfurled in Washington, Long Jim, last of a great Indian war chief family, is making his stand against civilization.

The wilderness home of the war chief of the Chelan, Methow and Okanogan Indians, has changed little since the first visit of Astor fur traders in 1811. Virtually the only concession Long Jim has made to advancing civilization has been the education, in the white man's schools, of his daughter, Princess Jessie Jim. She was proclaimed Princess America II at the national Indian congress at Seattle last July and later an honor guest at Atlantic City.

Long Jim took his present home along the Okanogan river on the Colville reservation after years of bitter struggle against early settlers and United States Indian agents. The old chief desired to live and die on the land of his fathers at the mouth of Lake Chelan, in north central Washington.

One of his great fights ended when Indian agents put him in jail for nine weeks for refusal to give up tribal lands on Lake Chelan to white men. Long Jim was released when courts ruled he was entitled to a square mile of his tribal holdings. But having controlled a vast territory from the Cascade mountains to the Columbia river, he refused to accept the allotment.

Bitter against the white man, he left the ancient Indian home and moved to an old camp ground on the reservation, 50 miles east. He paid his cousin, Columbia Jim, to move and leave him in solitary possession of the wild tract. He still refuses to accept the settlement involving his relinquishing the Chelan holdings or to accept any money accrued from it.

## High Cost of Dying

A colored man came into a ticket office and asked for two round-trip tickets to Charleston. The agent knew him and asked who was going with him.

"My brother," said the colored man.

"Your brother?" asked the agent.

"Where is he?"

"Out there in a box. He's daid."

answered the colored man.

"Well, if he is dead you don't want a return ticket for him."

"Yes, suh," said the colored man; "You see, we ain't goin' to bury him in Sha'leston; but we have about forty kinsfolks down there, and we figured it would be cheaper to carry him down to Sha'leston fo' de funeral service and bring him back, than to bring the whole family up here."

## Fight Indian Usurers

To protect the poor of India from a form of usury which not only blinds the borrower for life, but also ties up his sons and grandsons, the Young Men's Christian association is establishing banks in that country. More than 400 have been established in towns and villages by D. Swamidos, the native secretary, and more are being added. Representatives of the association visit the places and, as they have no offices, conduct their business under mango trees. In order to combine their campaign of hygiene and finance, Young Men's Christian association officials often compel an applicant to open the windows of his home or to wash her dirty baby before the loan is made.

## Sounds That Soar

In common with an investigation of city traffic noises in London, interesting tests were made to determine how high some of the sounds are carried, says Popular Mechanics Magazine. The measurements were made from a balloon, as an airplane would have drowned out all other noises than that of its engine. Rumble of vehicles was heard as high as 2,500 feet, while the whistle of a locomotive was audible at an altitude of a mile and a half. A gunshot carried 5,400 feet high, and music was distinguished at a height of 4,200 feet. The investigators were surprised to discover that the croaking of frogs could be heard over half a mile above the ponds.

## Fox and Terrier Battle

Followers of the Blencathra foxhounds witnessed a unique incident when, in Yew Crag, in the Naddle valley of England, a hard-pressed fox took refuge on a rock ledge in the face of the precipitous crag, out of reach of hounds and men. The whip's terrier, however, crept to this fastness, and for fully two minutes fox and dog inflicted punishment on each other. The fox, crouching against the wall of the rock, suffered most, and leaped out of the crag. The terrier following, missed its footing and fell 40 feet, but, alighting in deep snow, escaped serious injury. The fox was afterward killed by members of the hunting party.

## Hard to Stop Cock Fights

How to clear the Philippines of the increasing number of cock fights is a problem puzzling those who wish to stop the sport that is now flourishing in many parts of the islands. One plan recently advanced is to introduce counter sports to draw the interest of the young from the cockpits. Those who have investigated say that cock fighting is the only form of amusement in the rural communities, and that those who follow it do not do so for the sake of gambling so much as for the association with other men, and thus the cockpit is really the community club.

## Purely American Bird

The humming bird is found only on the American continent. It is closely allied to the swift, and there are several hundred species native from Labrador to Patagonia. The humming bird does not exactly move backward, but by the use of the pectoral muscles of the wing beats the air with a rapidity which enables the bird to remain stationary and to make such darting movements that apparently the flight may be backward.

## Sheep Growers' Handicap

In Australia conditions for sheep raising are so ideal that shrinkage is light. The Ohio region in this country produces as good wool as is grown anywhere. The sheep growers in the western range states have hardships to overcome in the way of climatic conditions that handicap them somewhat.
